# STATE OF SOUTH DAKOTA

DENNIS DAUGAARD, GOVERNOR

June 20, 2012

TO THE MEMBERS OF THE LEGISLATURE AND CITIZENS OF SOUTH DAKOTA:

It is my pleasure to present the *Comprehensive Annual Financial Report* covering operations for the fiscal year ending June 30, 2011. This is our 25<sup>th</sup> *Comprehensive Annual Financial Report*. The report is prepared in accordance with generally accepted accounting principles and includes all agencies of state government and reporting entities for which the state has oversight responsibilities. Like previous reports, this report presents to you and the financial community the sound financial condition of South Dakota.

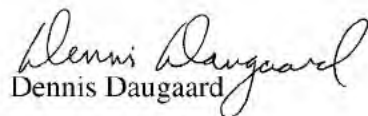

South Dakota's economy continues to grow even during times of national and global economic uncertainty. Our state's favorable business climate and strong agriculture base has helped the South Dakota economy to outperform the national economy over the past several years. Recent data supports this, as the state's average annual income growth rate from 2006 through 2011 was 5.2%, which was the second highest growth rate of all states and much higher than the national growth rate of 2.9% over that same five year period. In addition, the nonfarm employment growth rate in South Dakota exceeded the national growth rate from 2006 through 2011. The unemployment rate in South Dakota was one of the lowest rates in the nation through fiscal year 2011, and remains that way today.

As the Governor of this great state, I am committed to four financial priorities:

- Increasing job growth, economic development, and visitor spending,
- Taking care of those who cannot take care of themselves,
- Providing our children with a quality education, and
- Protecting our society from those who would do us harm.

South Dakota continues to operate within our means and to provide these basic services to our citizens, as we have since statehood in 1889.

Sincerely,

  
Dennis Daugaard

## DEPARTMENT OF EXECUTIVE MANAGEMENT BUREAU OF FINANCE AND MANAGEMENT

500 East Capitol Ave. • Pierre, South Dakota 57501-5070 • Voice: (605) 773-3411 • Fax: (605) 773-4711

**TO THE HONORABLE DENNIS M. DAUGAARD, GOVERNOR OF SOUTH DAKOTA**

### **MEMBERS OF THE SOUTH DAKOTA LEGISLATURE**

It is my privilege to present the Comprehensive Annual Financial Report (CAFR) on the operation of the State of South Dakota (hereinafter referred to as the State) for the fiscal year ended June 30, 2011.

**Report.** This report is prepared by the Bureau of Finance and Management and submitted as required by South Dakota Codified Law 4-4-6. The financial statements contained in the CAFR are prepared in conformity with generally accepted accounting principles (GAAP) applicable to government as prescribed by the Governmental Accounting Standards Board (GASB). Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the State's management. We believe the information, as presented, is accurate in all material respects and that all disclosures necessary to enable the reader to gain an adequate understanding of the State's financial affairs have been included.

The CAFR is presented in three sections: *Introductory*, *Financial*, and *Statistical*. The *Introductory Section*, which provides information on the general contents of the report, contains this letter of transmittal, a list of principal State officials, fiscal year 2011 functions of State government, and an organizational chart of State government. The *Financial Section* includes the Independent Auditor's Report on the Basic Financial Statements; Management's Discussion and Analysis (MD&A) that provides an introduction, overview, and analysis to the "Basic Financial Statements"; the Basic Financial Statements that present the government-wide financial statements, fund financial statements, notes to the Basic Financial Statements; Required Supplementary Information that includes budgetary comparison schedules; and Other Supplemental Information that includes combining financial statements and schedules for individual funds. The *Statistical Section* includes financial trends, revenue capacity, debt capacity, demographic, economic, and operating information.

**Internal Controls.** Management of the State is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The Bureau of Finance and Management is able to monitor revenues and expenditures on a weekly basis to detect excess expenditures or shortfalls in revenues. As required by State statute, the State Auditor, an elected official, shall be presented all accounts and claims against the State to examine and adjust the same. Also, as required by State statute, the State Treasurer, an elected official, shall have charge of, and safely keep, all public moneys which shall be paid into the State treasury, and pay out the same as directed by law. The Department of Revenue periodically audits retail establishments to assure their payment of sales and excise taxes. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that 1) the cost of a control should not exceed the benefit likely to be derived and 2) the valuation of costs and benefits requires estimates and judgements by management.

**Independent Auditors.** The South Dakota Department of Legislative Audit, a division of the legislative branch of State government, performs the audit of *South Dakota's Comprehensive Annual Financial Report*. The audit is conducted in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards (GAS) issued by the Comptroller General of the United States. The Independent Auditor's Report (issued by the Department of Legislative Audit) includes an expression of opinion on the financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State of South Dakota as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, for the fiscal year then ended.

In conjunction with the audit of the State's financial statements, the Department of Legislative Audit also performs audits of major federal and state programs and issues an opinion on the State's compliance with the requirements of

major federal programs. The results of the audit of federal and state programs are presented in the *South Dakota Single Audit Report*.

Internal control procedures are evaluated on an annual basis by the Department of Legislative Audit to provide reasonable assurance for the safeguarding of the State's assets and to provide reasonable assurance of proper recording of financial transactions used to prepare this report.

**Management's Discussion and Analysis (MD&A).** GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of MD&A. The letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The State's MD&A can be found immediately following the Independent Auditor's Report.

## **PROFILE OF THE GOVERNMENT**

**Structure.** The State entered the Union on November 2, 1889 as the 39<sup>th</sup> or 40<sup>th</sup> state (with its twin, North Dakota). South Dakota has 75,885 square miles of land and a population estimated to be 0.8 million. The State has a strong governor-bicameral legislative form of government. The Governor may be elected for two consecutive four-year terms. The Governor appoints all heads of state departments who serve at the pleasure of the Governor. The State Legislature is composed of a 35-member Senate and a 70-member House of Representatives. Legislators are elected for two-year terms and limited to four consecutive terms for the same seat.

**Services.** State government provides services to citizens that include support for public education, public assistance and Medicaid, health and human services, public safety, building and maintaining state highways, agricultural and environmental services, community and economic development, and other general government services.

**Budget Process.** State law requires annual preparation and approval of the State's budget. The Governor presents the annual budget to the State Legislature by the first Tuesday after the first Monday in December. The State Legislature is required to approve a budget by the end of the legislative session. There is no provision for a continuing resolution. The State has always taken the position that the Constitution of the State of South Dakota requires the State budget be balanced and thus the State Legislature has always passed a balanced budget. Accumulated General Fund balances may be drawn down to balance an annual budget, as long as the General Fund balance remains positive. The Governor has the power to veto individual line items in the budget approved by the State Legislature. The State budget must remain in balance through the end of the fiscal year. Accordingly, state departments cannot encumber more funds than they have been authorized to spend. During the year, the Governor may authorize intradepartmental transfers of funds, as long as total appropriation levels are not exceeded.

At the request of Governor Dugaard, HJR 1007 was passed during the 2012 Legislative Session. This resolution legislatively refers a constitutional amendment to a public vote at the November 6, 2012 General Election. This constitutional amendment clarifies the balanced budget provisions within the Constitution of the State of South Dakota. Specifically, it requires the Governor to propose and the Legislature to pass an annual budget in which expenditures and appropriations may not exceed anticipated revenue. If passed, this constitutional amendment would clarify constitutional language. It would not change the balanced budget philosophy that this State has followed since statehood.

The State's largest sources of General Fund revenues are sales and service taxes, business taxes, and lottery proceeds. The largest categories of General Fund expenditures are general bill expenditures for state aid to primary and secondary education; property tax relief payments made by the State to local government units through state aid to education; the State's share of the cost of Medicaid, corrections and higher education; operation, maintenance and improvement of facilities for state government; and state salaries.

**State Reporting Entity.** The State's reporting entity reflected in the CAFR, which is described more fully in the Notes to the Financial Statements, conforms to the requirements of GASB Statement No. 14, *The Financial Reporting Entity*. The accounting and reporting principles contained in Statement No. 14 are based primarily on the fundamental concept that publicly elected officials are accountable to their constituents. Further, Statement No. 14 provides that the financial statements should emphasize the primary government and permit financial statement users to distinguish between the primary government and its component units. Under GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units", individually significant legally separate tax-exempt organizations are included as component units if their resources are for the direct benefit of the State and the State can access those resources. Consequently, the transmittal letter, MD&A, and the basic financial statements focus on the primary government and its activities. Although information pertaining to the discretely

presented component units is provided, their separately issued financial statements, excluding Higher Education, should be read to obtain a complete overview of their financial position.

**Risk Management.** The Risk Management Program was created to protect the assets and resources of the State through efficient control and financing of risks inherent in government operations by ensuring a safe environment for State employees and the general public. Responsibilities include ensuring that exposures to financial loss are discovered and handled appropriately, minimizing the possible interruption of vital public services, and reducing the costs and consequences of accidents through effective loss control management.

Housed with the Risk Management Program is the Public Entity Pool for Liability (PEPL), a self-insurance program created to cover risks associated with automobile liability, and general tort liability (including public officials, errors, and omissions liability; medical malpractice liability; law enforcement liability; and, products liability).

More information on the risk management activities can be found in the Notes to the Financial Statements.

**Cash Management.** The South Dakota Investment Council was established by the State Legislature in 1971 and became operational on July 1, 1972. The Investment Council is responsible for the investment management for the assets of the Cash Flow Fund, the South Dakota Retirement System, South Dakota Cement Plant Retirement Fund, School and Public Lands, Dakota Cement Trust Fund, Education Enhancement Trust Fund, and Health Care Trust Fund.

Total investment income for all funds invested by the Investment Council was \$1.9 billion for fiscal year 2011. Income for the most recent five years totaled \$2.4 billion and, since inception, has exceeded \$10.7 billion. The Investment Council has grown from \$133.0 million in assets under management at the end of its first year to \$9.9 billion at June 30, 2011.

Investment Council management of the Cash Flow Fund portfolio resulted in earnings this year of \$26.4 million, a yield of 3.37%. The Cash Flow Portfolio has earned taxpayers \$1 billion over the past 39 years.

The South Dakota Retirement System's assets have returned 10.6% for the past 38 years (since inception of the Council's management responsibilities for SDRS). This performance has placed the Council in the top one percentile against other state pension funds.

Cash management and investments are discussed more fully in the Notes to the Financial Statements.

**Lottery.** The South Dakota Lottery Fund was created during the 1987 legislative session to market instant scratch games. Video lottery was authorized during the 1989 legislative session and operations commenced in October 1989. Legislative approval to participate in a multi-state lotto game was given during the 1990 legislative session. That same year, the State joined the Multi-State Lottery Association (MUSL), a consortium of 32 lottery jurisdictions that currently offer the Powerball game. The purpose of the lottery is to provide additional monies to fund vital public programs and projects, and as of June 30, 2011, \$2.04 billion has been generated to fund many public programs and projects. Lottery provided \$108.0 million income (before transfers) during fiscal year 2011.

**Retirement System.** The South Dakota Retirement System is the largest of the defined benefit plans for which the State is responsible for providing funding.

The South Dakota Retirement System provides retirement benefits for State employees and those employees of local governments that participate in the system. Employers and employees contribute equal amounts in the form of a percentage of employee compensation.

The unfunded actuarial accrued liability as a percent of covered payroll went from 14.0% in 2002 to 18.7% in 2011. The funding ratio decreased from 96.7% in 2002 to 96.4% in 2011. The funding ratio is the ratio of the actuarial value of the assets of the system to the actuarial accrued liabilities of the system as of the date of calculation. In fiscal year 2011, SDRS experienced a 25.8% market return, significantly more than the assumed rate of return of 7.75%.

Plan assets at fair value in 2011 were \$7.9 billion compared to plan assets in 2002 of \$4.6 billion.

The assets of the system are valued at their fair value. The system is in full compliance with the standards of the Governmental Accounting Standards Board and has received the Government Finance Officers Association's (GFOA)

Certificate of Achievement for Excellence in Financial Reporting for the last sixteen years. The system is subject to an annual actuarial valuation and annual audit performed by an independent audit firm.

Additional information on the State's retirement plans can be found in the Notes to the Financial Statements.

**Health and Life Insurance Benefits.** The State (rather than an insurance carrier) assumes substantially all risk associated with claims of covered public employees for health insurance and life insurance benefits. However, an insurance carrier provides claims administration services for health insurance. The Group Insurance Program within the Bureau of Human Resources was established to administer and improve group health, life, and the flexible benefit plans for state employees and their dependents. The program provides for payment of benefits to eligible claimants in the most efficient and cost effective manner. Premiums are charged to state funds for all covered employees, while employees share in the costs of co-pays, deductibles, and dependent costs.

Additional information on the State's health and life insurance benefits can be found in the Notes to the Financial Statements.

### ***ECONOMIC CONDITIONS AND OUTLOOK***

Employment growth is an important indicator of the state's economic health. Although the national economic recession has had a negative impact on employment in recent years, positive employment growth returned in calendar year 2011 as the economy continues to improve as more jobs are being created. South Dakota nonfarm employment growth was 1.2% in 2008, -1.9% in 2009, -0.1% in 2010, and 0.7% in 2011. This compares to the United States nonfarm employment growth of -0.6% in 2008, -4.4% in 2009, -0.7% in 2010 and 1.2% in 2011.

In fiscal year 2011 (July 2010 – June 2011), nonfarm employment in South Dakota grew 0.9% compared to the national growth rate of 0.7% over the same time period. This was the 10th straight fiscal year that the South Dakota job market performed better than the United States. Sectors that experienced growth in fiscal year 2011 in South Dakota included: manufacturing; trade, transportation, and utilities; professional and business services; education and health services; leisure and hospitality; and government. Sectors that experienced declines during fiscal year 2011 include: mining, logging, construction; information; other services; and financial activities.

The unemployment rate in South Dakota continued to remain one of the lowest in the nation during fiscal year 2011, even while recovering from a severe national recession. In June of 2011, South Dakota's unemployment rate was 4.7%, nearly half the U.S. unemployment rate of 9.1% for the same month.

Income growth is another important indicator of the state's economic health. In calendar year 2011, which is the most recent annual data that is available, South Dakota's personal income grew 6.2%, exceeding the national growth rate of 5.1%. From 2006 through 2011, South Dakota's average personal income growth rate was 5.2% which ranked second in the nation over this time period. This was much higher than the national growth rate of 2.9% and the seven state Plains region growth of 3.6%. The other Plains region states of Iowa, Kansas, Minnesota, Missouri, Nebraska, and North Dakota experienced average income growth rates of 4.3%, 3.3%, 3.0%, 3.0%, 4.1%, and 7.9%, respectively, over the same time period.

In addition to employment and income growth, a strong agriculture economy has helped the State during challenging economic times. Both calendar year 2010 and 2011 were strong years for crop production in South Dakota which helped to grow the State's economy after the national economic recession. The value of all field and miscellaneous crops produced in South Dakota in 2011 totaled \$7.77 billion, 25.2% higher than the \$6.20 billion value of 2010 crops. The increase in value is due to increases in the value of corn for grain, soybeans, wheat, and hay produced in 2011. The 2011 value of crops produced in South Dakota represents the highest crop value since the series began in 1969.

The long term outlook for South Dakota's economy is optimistic as the state continues to grow from the national economic recession. As of April 2012, South Dakota's nonfarm employment levels were 3000 jobs or 0.7% higher when compared to a year earlier. In addition, the unemployment rate in South Dakota is currently at 4.3%, much lower than the U.S. unemployment rate of 8.1% as of April 2012. South Dakota's economy is expected to continue to grow in 2012 and 2013 as the State continues to boast one of the lowest state per capita taxes in the nation. The state's business friendly environment combined with a strong farm economy will help South Dakota's economy expand in the future.

## MAJOR INITIATIVES

Governor Daugaard continues to focus on job growth, economic development and visitor spending, taking care of those who cannot take care of themselves, providing our children with a quality education, and protecting our society from those who would do us harm. Recently, the state has stepped up efforts at creating new jobs, attracting new South Dakotans, and investing in teachers.

Listed below are some of the major initiatives the State has implemented in recent years in an effort to accomplish our goals:

**Governor's Large Project Development Fund.** Created in 1991, the Large Project Tax Refund Program is currently being used to lure large businesses to South Dakota. This program provides incentives to new and expanding businesses in South Dakota by refunding a portion of sales, use, and contractors' excise taxes to any business with construction projects that meet the requirements of the program. This program has encouraged the construction of 48 completed projects totaling more than \$3 billion, with more underway and created thousands of jobs in our state. However this program is set to expire at the end of 2012.

In 2011 the Legislature created the Governor's Large Project Development Fund to replace the Large Project Tax Refund Program when it expires. This new program no longer refunds a portion of sales, use, and contractors' excise taxes, but instead allocates 22% of the annual contractors' excise tax revenues into the Large Project Development Fund. This fund is then used to provide front-end economic development incentives to targeted businesses that are looking to develop or expand in South Dakota. This new program gives the State more flexibility to recruit businesses while providing savings to the General Fund. The Governor's Large Project Development Fund has been referred to a public vote at the November 6, 2012 General Election.

**South Dakota Workforce Initiative (SDWINS).** Funding for SDWINS passed during the 2012 Legislative Session providing funding for various economic development projects throughout the state. SDWINS will better prepare our young people for the future, all while providing immediate training to our citizens so they can fill positions already in our state. It will also work to improve access to rural health care and aggressively market South Dakota to attract new citizens and encourage the return of those who've moved away from our state.

The Departments of Labor & Regulation, Education, Health, the Governor's Office of Economic Development, and the Board of Regents have partnered to capitalize on South Dakota's tremendous potential.

- **Preparing Our Youth** is creating an education system that focuses on achievement. By paying a premium for teachers in math and science, we will attract a great new generation of educators. We will also help our children learn about careers and make informed decisions, by expanding the SD MyLife web portal and increasing access to hands-on-career cluster camps. We will also give a more personalized education to those who need remediation or are ready for advanced placement or college courses.
- **Training for Skilled Jobs** is training South Dakotans who are ready to go to work. We will train more welders and machinists both online and in the lab. We will provide different certifications for capable workers in local communities while also helping with additional training.
- **Promoting Rural Health Occupations** will add more capacity to our medical and Physicians Assistant education. We will also expand recruitment and retention incentives to include more providers and more rural communities.
- **New South Dakotans** will invite our friends and family members back to South Dakota through a reinvigorated Dakota Roots program. We are undertaking an unprecedented partnership to recruit new pioneers, new South Dakotans to our state to take chronically unfilled, open positions in our workplace and in our communities. We will also help communities conduct housing surveys so that they may better develop and market housing options and investment opportunities in their communities.

**South Dakota WORKS.** After being awarded \$13 million from the Small Business Jobs Act of 2010, the SD WORKS program was developed to provide small businesses with easier access financing, such as working capital, so they can realize their full potential. For every \$1 loaned from this program, it will leverage \$10 in private sector financing or equity. Small businesses can use the funds for startup costs, working capital, inventory, and to acquire a place of business. As loans are paid back, the funds are then reinvested into other small businesses.

## Investing in Teachers.

During the 2012 Legislative Session, the Governor introduced the Investing in Teachers initiative (HB1234), which is based on the simple premise that great teaching is the most important in-school factor to affecting student achievement. New incentive and reward programs are strategically designed to focus on critical needs areas in schools. Also, changes in policies will improve accountability measures of teachers and administrators.

Components of this initiative include:

- Investing \$8.4 million on a one-time basis for a comprehensive training effort in four distinct areas: training for teachers on the new Common Core curriculum standards; academies for science teachers; workshops for school counselors; and leadership training for school administrators. This training will occur over the next three years.
- Creating the Top Teachers Reward Program, which will provide \$1,000 per teacher to schools to be used to reward teachers for student achievement or teacher leadership. These funds can also be used to help schools fill critical teaching area needs.
- Starting the Critical Teaching Needs Scholarship Program, which will fund up to 100 full-tuition scholarships annually for junior and senior teaching students who agree to work in a high-need teaching field for five years after college.
- Beginning a Math and Science Teacher Incentive Program, which will reward distinguished and proficient math and science teachers with a \$2,500 annual bonus.
- Phasing out the continuing contract (tenure) rights for teachers currently not tenured so schools are not required to offer teachers contracts after three years of service.
- Implementing a new accountability system to replace No Child Left Behind. This new system is designed to have strong, standardized evaluations of students, teachers, and schools every year that are based on growth, not an arbitrary benchmark.

The Investing in Teachers initiative has been referred to a public vote at the November 6, 2012 General Election.

**Sanford Underground Research Facility (SURF).** In 2007, the National Science Foundation (NSF) selected the Sanford Underground Research Facility (SURF), owned by the South Dakota Science and Technology Authority (SDSTA), as the site for a Deep Underground Science and Engineering Laboratory (DUSEL). The National Science Board awarded \$80 million dollars in grants to develop the design in cooperation with the US Department of Energy (DOE) who is also interested in conducting underground experiments. The SDSTA has been operating the facility with funding from the State of South Dakota and a gift from T. Denny Sanford, but anticipated to run out of funds by June 2011. In December of 2010, the National Science Board decided not to fund future operations as they did not feel funding facilities was within their mission. However, they agreed to fund the DUSEL with \$1 million per month through September 2011. The US DOE is currently funding the SURF in the 2012 federal fiscal year, which runs through October of 2012. The US DOE is still assessing the Long Baseline Neutrino Experiment, proposed with a large detector at SURF, but has committed to fund SURF operations for the next several years while the LUX dark matter experiment and the Majorana Double Beta decay experiment are running at the facility's 4,850 feet underground level. There are proposals written to both the NSF and US DOE that would put the next generation dark matter (bigger detector) as well as Nuclear Astrophysics experiments at SURF and could ensure operational funding through 2020.

## ACKNOWLEDGMENTS

The preparation of this report required the collective efforts of numerous financial personnel throughout the State from various agencies and departments. I sincerely appreciate the dedicated efforts of all of these individuals. I would also like to recognize and commend the efforts of the accounting staff of each State agency, the Bureau of Finance and Management, and the staff of the Department of Legislative Audit for their talents in making this report possible.

This report continues our commitment to the citizens of the State of South Dakota, the Governor, the Legislature, and the financial community, to maintain the highest standards of accountability and financial reporting.

Respectfully Submitted,

Jason C. Dilges, Chief Financial Officer  
Bureau of Finance and Management

## INDEPENDENT AUDITOR'S REPORT

The Honorable Dennis Daugaard  
Governor of South Dakota

and

Members of the Legislature  
State of South Dakota

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State of South Dakota as of and for the year ended June 30, 2011, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Unemployment Insurance Fund, the South Dakota Retirement System, the South Dakota Housing Authority and certain foundations of Higher Education. Those financial statements reflect total assets and revenue and additions of the business-type activities, the aggregate discretely presented component units, and the aggregate remaining fund information as follows:

	<u>Percent of Total Assets</u>	<u>Percent of Total Revenues/Additions</u>
Government-wide financial statements:		
Business-type activities:		
Unemployment Insurance Fund	4.5%	24.1%
Fund financial statements:		
Aggregate discretely presented component units:		
South Dakota Housing Authority	59.1%	16.2%
Foundations of Higher Education	11.6%	10.3%
Aggregate remaining fund information:		
Unemployment Insurance Fund	.3%	1.8%
South Dakota Retirement System	86.8%	44.0%

Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for those funds and entities, is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we

plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provides a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State of South Dakota, as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 20, 2012, on our consideration of the State of South Dakota's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The accompanying management discussion and analysis and budgetary comparison schedule as listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by the Government Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of South Dakota's basic financial statements. The introductory section and supplementary information, such as the combining and individual nonmajor fund financial statements and the statistical section as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of the other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

A handwritten signature in black ink, appearing to read "Martin L. Guindon". The signature is stylized with a large, looped "M" and a long, sweeping "G".

Martin L. Guindon, CPA  
Auditor General

June 20, 2012

## ***MANAGEMENT'S DISCUSSION AND ANALYSIS***

---

The following is a discussion and analysis of the State of South Dakota's (hereinafter referred to as the State) financial performance and position, providing an overview of the State's financial activities for the fiscal year ended June 30, 2011. Please read it in conjunction with the transmittal letter in the Introductory Section of this report and with the State's financial statements that follow this section.

### ***FINANCIAL HIGHLIGHTS***

#### ***Government-wide***

- Total assets of the State exceeded its total liabilities at the close of the fiscal year by \$5.05 billion (reported as net assets), an increase of \$313.8 million from the previous year. Certain resources within the total net assets balance have restrictions and internally imposed limitations that are discussed within the *Government-wide Financial Analysis* section of this document. Component units reported net assets of \$1.5 billion, an increase of \$116.4 million from the previous year.

#### ***Fund Level***

- At the close of the fiscal year, the State's governmental funds reported combined ending fund balances of \$1.5 billion, an increase of \$156.0 million. Of the \$1.5 billion in combined ending fund balance, \$686.9 million is nonspendable and \$493.6 million is restricted by outside sources or enabling legislation. Another \$36.8 million is committed by state law and \$182.8 million has been assigned for various specific purposes. The remaining \$117.2 million is unassigned according to GASB 54. Please refer to Notes to the Financial Statements for further explanation and breakdown of these balances. Certain resources within the \$117.2 million of the unassigned fund balance have internally imposed limitations that are discussed throughout the *Financial Analysis of the State's Funds* section of this document and the Notes to the Financial Statements.
- Proprietary funds reported net assets at year-end of \$530.8 million, an increase of \$48.5 million during the year.

#### ***Long-Term Debt***

- The primary government's total long-term debt (Revenue Bonds, Trust Certificates and Capital Leases) as of June 30, 2011, totaled \$484.0 million, an increase of \$50.4 million from the last fiscal year-end. The increase represents the net difference between new issuances, payments and refundings of outstanding debt.
- During the fiscal year, the South Dakota Building Authority issued \$5.6 million in Taxable Revenue Bonds (Recovery Zone Economic Development Bonds) and \$3.9 million in Taxable Revenue Bonds for Governmental Activities. The State incurred no new long-term general indebtedness under Business-type Activities. The South Dakota Building Authority issued \$11.4 million in Taxable Revenue Bonds (Build America Bond) and \$9.0 million in Taxable Revenue Bonds (Recovery Zone Economic Development Bonds) for Higher Education (a discretely presented component unit).

## OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the State's basic financial statements. The State's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements.

### ***Government-wide Financial Statements (Reporting the State as a whole)***

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the State's financial position that aids in assessing the State's economic condition at the end of the fiscal year. These statements include all nonfiduciary assets and liabilities, using the flow of economic resources measurement focus and the accrual basis of accounting. The current year's revenues and expenses are taken into account, regardless of when cash is received or paid. The government-wide financial statements include two statements:

- ***The Statement of Net Assets*** presents information on all of the State's assets and liabilities, with the difference between the two reported as "net assets." Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial position of the State is improving or deteriorating.
- ***The Statement of Activities*** presents information depicting how the State's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both the statement of net assets and the statement of activities segregate the activities of the State into three types:

- ***Governmental Activities.*** The governmental activities of the State include general government; education – elementary, secondary and vocational schools; education – state support to higher education; health, human and social services; law, justice, public protection and regulation; agriculture and natural resources; economic resources; transportation; intergovernmental – payments to school districts; intergovernmental – revenue sharing; unallocated interest expense; and, unallocated depreciation. Taxes, fees, unrestricted investment earnings, and intergovernmental revenues (federal grants) finance most of the costs of these activities.
- ***Business-type Activities.*** The State charges fees to customers to help cover all or most of the costs of certain services it provides. The Lottery Fund is an example of a business-type activity.
- ***Discretely Presented Component Units.*** Component units are legally separate organizations for which the State is financially accountable, or the nature and significance of the unit's relationship with the State is such that exclusion of the unit would cause the State's financial statements to be misleading, or incomplete. The following entities are included in the component unit columns of the State's government-wide financial statements:
  - ✓ Higher Education
  - ✓ Conservation Reserve Enhancement Program (CREP)
  - ✓ South Dakota Housing Development Authority
  - ✓ South Dakota Economic Development Finance Authority
  - ✓ Value Added Finance Authority
  - ✓ South Dakota Science and Technology Authority

Other component units are blended and reported as part of primary government or considered related organizations and not reported in these financial statements. For additional information regarding component units, refer the Notes to the Financial Statements.

## ***Fund Financial Statements***

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The State, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Some funds are required by law, while others are established internally to maintain control over a particular activity. All funds of the State can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. It is important to note that these categories use different accounting approaches and should be interpreted differently.

- ***Governmental Funds.*** Most of the State's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for future spending. The governmental fund financial statements provide a detailed short-term view of the State's general government operations and the basic services it provides. Governmental fund information helps determine the financial resources that can be spent in the near future to finance the State's programs. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. Governmental funds include the General Fund and special revenue, capital projects, debt service, and permanent funds.

Since the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the State's short-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund's financial statement.

The State maintains several individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Transportation Fund, Social Services Federal Fund, Dakota Cement Trust Fund, and Education Enhancement Trust Fund, which are considered to be major funds. Data from the remaining governmental funds are combined into a single, aggregated presentation. Individual fund data for some nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

- ***Proprietary Funds.*** Proprietary funds include: (1) enterprise funds and (2) internal service funds. These funds account for the State's activities that operate much like private sector businesses. Like the government-wide financial statements, proprietary fund statements are presented using the full accrual basis of accounting.
  1. Enterprise funds (e.g., Lottery Fund) are used to account for activities that largely involve customers outside of state government, and are the same functions reported as business-type activities in the government-wide financial statements.
  2. Internal service funds (e.g., Fleet and Travel Management) are used to account for activities that largely involve other state agencies. The internal service fund activities are consolidated with the governmental activities in the government-wide financial statement because those services predominantly benefit governmental rather than business-type activities.

The State maintains several individual proprietary funds, of which the following three are considered major funds: Lottery Fund, Clean Water State Revolving Fund, and Drinking Water State Revolving Fund. These three proprietary funds are presented separately in the proprietary funds statement of net assets and statement of revenues, expenses, and changes in fund net assets. Information from the remaining funds is combined into two separate, aggregated columns by proprietary fund type. Individual fund data for some nonmajor proprietary funds is provided in the form of combining statements elsewhere in this report.

- **Fiduciary Funds.** Fiduciary funds (e.g., South Dakota Retirement System) are used to report activities when the State acts as a trustee or fiduciary to hold resources for the benefit of parties outside state government. The full accrual basis of accounting is used for fiduciary funds and is similar to the accounting used for proprietary funds. The government-wide financial statements exclude fiduciary fund activities and balances because these assets are restricted in purpose and cannot be used by the State to finance operations.

The State's fiduciary funds include pension trust funds, private purpose trust funds, and agency funds. Individual fund data for some of the fiduciary funds is included in the combining financial statements elsewhere in this report.

## ***Notes to the Financial Statements***

The notes to the financial statements are an integral part of the financial statements and provide additional narrative and financial information essential to fully understand the data provided in the government-wide financial statements and fund financial statements. The notes to the financial statements are located immediately following the fiduciary funds' financial statements.

## ***Required Supplementary Information***

The basic financial statements are followed by a section of required supplementary information. This section includes a Budgetary Comparison Schedule, and related notes, for the General Fund and for each major special revenue fund that has a legally adopted annual budget. The only special revenue funds that fit this criterion are the Transportation Fund and the Social Services Federal Fund.

The Budgetary Comparison Schedule presents both the original and the final appropriated budgets for the fiscal year. The Budgetary Comparison Schedule also lists the actual outflows and balances stated on a budgetary basis. A variance column is included to compare the final appropriated budget with the actual budget results.

Because accounting principles used to present budgetary basis differ significantly from those used to present financial statements in conformity with Generally Accepted Accounting Principles (GAAP), a Budget-to-GAAP Reconciliation can be found immediately following the Budgetary Comparison Schedule. The Budget-to-GAAP Reconciliation explains the differences between budgetary outflows and GAAP expenditures.

## ***Other Supplementary Information***

Other supplementary information includes combining financial statements for: nonmajor governmental funds, proprietary funds, fiduciary funds, and component units that are incorporated into the basic financial statements.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

**Net Assets.** As presented in the following table, total assets of the State on June 30, 2011 were \$5.97 billion, while total liabilities were \$0.92 billion, resulting in combined net assets (governmental and business-type activities) of \$5.05 billion.

### State of South Dakota Net Assets (Expressed in Thousands)

	Governmental Activities		Business-type Activities		Total Primary Government	
	2011	2010	2011	2010	2011	2010
Current and Other Assets	\$1,892,874	\$1,764,048	\$688,087	\$640,465	\$2,580,961	\$2,404,513
Capital Assets	3,388,057	3,283,671	4,360	4,863	3,392,417	3,288,534
<b>Total Assets</b>	<b>5,280,931</b>	<b>5,047,719</b>	<b>692,447</b>	<b>645,328</b>	<b>5,973,378</b>	<b>5,693,047</b>
Long-Term Liabilities Outstanding	411,499	400,790	175,422	127,688	586,921	528,478
Other Liabilities	328,830	350,698	12,167	65,195	340,997	415,893
<b>Total Liabilities</b>	<b>740,329</b>	<b>751,488</b>	<b>187,589</b>	<b>192,883</b>	<b>927,918</b>	<b>944,371</b>
Net Assets:						
Invested in Capital Assets,						
Net of Related Debt	3,300,829	3,194,701	4,360	4,863	3,305,189	3,199,564
Restricted	1,144,456	1,004,704	1,931	2,138	1,146,387	1,006,842
Unrestricted	95,317	79,854	498,567	445,444	593,884	525,298
<b>Total Net Assets</b>	<b>\$4,540,602</b>	<b>\$4,279,259</b>	<b>\$504,858</b>	<b>\$452,445</b>	<b>\$5,045,460</b>	<b>\$4,731,704</b>

The largest component of the State's net assets, 65.5%, is investments in capital assets (land; land improvements; land improvements – roads; buildings; equipment; vehicles; infrastructure; and construction in progress), less depreciation and all outstanding debt that was issued to buy or build those assets. The State uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the State's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

Restricted net assets comprise 22.7% of total net assets. These net assets are subject to restrictions either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws/regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation on how they can be used. The majority of the restricted net assets are restricted for funds held as permanent investments, either as expendable (\$71.6 million) or nonexpendable (\$683.8 million). These include the following funds:

- **Dakota Cement Trust Fund.** This fund consists of the proceeds from the sale of the State Cement Plant and all investment earnings thereon. Article XIII, section 21 of the Constitution of the State of South Dakota states: "Except as provided in Article XIII, section 20 of the Constitution of the State of South Dakota, the original principal of the trust fund shall forever remain inviolate. However, the Legislature shall, by appropriation, make distributions from the difference between the twelve million dollar annual general fund transfer and five percent of the market value of the trust fund for the support of education, but not for the replacement of state aid to general education or special education, if the increase in the market value of the trust fund in that fiscal year was sufficient to maintain the original principal of the trust fund after such distributions. Beginning with fiscal year 2006, the market value of the trust fund shall be determined by adding the market value of the trust fund at the end of the sixteen most recent calendar quarters, and dividing that sum by sixteen." The fund balance in the Dakota

Cement Trust Fund at June 30, 2011 was \$242.7 million, an increase of \$31.7 million from the previous year. The increase resulted primarily from investment income. The Dakota Cement Trust Fund transferred \$12.0 million to the General Fund in fiscal year 2011.

- **Health Care Trust Fund.** This fund is authorized by State law to make an annual distribution equal to 4.0% of its market value (less the investment expenses) into the General Fund for health care related programs. Article XII, section 5 of the Constitution of the State of South Dakota also states that, "the Health Care Trust Fund may not be diverted for other purposes, nor may the principal be invaded unless appropriated by a three-fourths vote of all of the members-elect of each house of the legislature." The fund balance in the Health Care Trust Fund at June 30, 2011 was \$104.1 million, an increase of \$14.4 million from the previous year due primarily from investment income. On an accrual basis, the Health Care Trust Fund transferred \$3.9 million to the General Fund in fiscal year 2011.
- **Education Enhancement Trust Fund.** This fund consists of monies received from the Tobacco Settlement Agreement, monies transferred from the Tobacco Securitization Fund, and monies from the Youth-at-Risk Fund. The fund is authorized by State law to make an annual distribution equal to 4.0% of its market value (less the investment expenses) into the General Fund for educational enhancement programs. Article XII, section 6 of the Constitution of the State of South Dakota also states that, "the Education Enhancement Trust Fund may not be diverted for other purposes, nor may the principal be invaded unless appropriated by a three-fourths vote of all the members-elect of each house of the legislature." The fund balance in the Education Enhancement Trust Fund at June 30, 2011 was \$377.1 million, an increase of \$50.9 million from the previous year. The increase resulted primarily from investment income. On an accrual basis, the Education Enhancement Trust Fund transferred \$14.5 million to the General Fund in fiscal year 2011.

The remaining balance, \$593.9 million, is defined by accounting standards as "unrestricted" net assets. However, much of the unrestricted net assets cannot be used to meet the State's general ongoing obligations to citizens and creditors as resources because of limitations imposed by federal regulations, bond covenants, or internally by state law. Limitations on unrestricted net assets imposed by federal regulations and bond covenants include \$195.9 million within the Clean Water State Revolving Fund and \$144.5 million within the Drinking Water State Revolving Fund. Other federal and state regulation limitations include, but are not limited to, \$92.3 million within the Revolving Economic Development and Initiative Fund, \$30.1 million for unemployment insurance claims, \$7.6 million for revolving loan programs, and \$5.8 million for health and public assistance.

Those funds with limitations imposed by State Law include the following:

- **General Fund Budget Reserve.** The 1991 South Dakota Legislature established a General Fund Budget Reserve whereas expenditures out of the budget reserve fund shall only be used by special appropriation (which requires a two-thirds vote of all the members of each branch of the Legislature) and shall only redress such unforeseen expenditure obligations or such unforeseen revenue shortfalls as may constitute an emergency pursuant to S.D. Const., Art. III, § 1. The balance in the General Fund Budget Reserve at June 30, 2011 was \$43.4 million, which has remained unchanged from the previous year.
- **Property Tax Reduction Fund.** Senate Bill 225, passed during the 1996 legislative session, created the "Property Tax Reduction Fund" (PTRF). It's intent is to fund property tax relief in South Dakota by decreasing local effect and increasing the state share in funding education. This law provides that the Commissioner of Bureau of Finance and Management may transfer monies available from the PTRF to the General Fund to provide property tax relief through state aid to education. Revenues deposited in the PTRF come from four sources: (1) 49.5% of video lottery net machine income, (2) 60% of the revenue from the 4% tax on the gross receipts of telecommunications services, which was imposed by HB 1104 passed by the 2003 legislature, (3) 33% share of revenue generated from the tobacco tax in excess of \$35 million; and (4) unobligated cash remaining at the end of a fiscal year after the transfer into the Budget Reserve, if the amount in the PTRF does not exceed 15% of the General Fund appropriations in the General Appropriations Act for the previous fiscal year. This statutorily created fund no longer qualifies as a special revenue fund under GASB 54. In FY11 it is being reported as a subfund of the General Fund. It is and will continue to be budgeted for, accounted for and

tracked separately on the State's budget and accounting system. The fund balance in the Property Tax Reduction Fund at June 30, 2011 was \$67.8 million, a decrease of \$0.4 million from the previous year. \$110.4 million from the property tax reduction fund was used to provide property tax relief through state aid to education in FY2011.

**Changes in Net Assets.** The following table summarizes financial information derived from the government-wide statement of activities and reflects how the State's net assets changed during fiscal year 2011.

(Expressed in Thousands)	Governmental Activities		Business-type Activities		Total Primary Government	
	2011	2010	2011	2010	2011	2010

### **Governmental Activities:**

The State's net assets for Governmental Activities increased by \$261.3 million, or 6.1%, from its current operations. This was the result of the net effect of the following: (1) \$3.6 billion revenues (an increase from the prior year of \$183.3 million); less (2) \$3.4 billion expenses (an increase over the prior year of \$138.0 million);

plus (3) net transfers of \$107.8 million (primarily from "transfers in" from the South Dakota Lottery in the amount of \$108.0 million).

- The increase in revenues was primarily due to a \$78.3 million increase in sales tax revenue, a \$69.4 million increase in operating grants and contributions, and a \$41.9 million increase in investment earnings.
- The increase in expenses was primarily due to a \$51.5 million and \$45.6 million increases in Transportation and Law, Justice, Public Protection and Regulation functions of government.

The following two charts illustrate the above program revenues and expenses for Governmental Activities for fiscal year ending June 30, 2011:

### State of South Dakota Revenues - Governmental Activities Fiscal Year Ended June 30, 2011

**Total Revenues \$3,599,760  
(Expressed in Thousands)**

**State of South Dakota  
Expenses - Governmental Activities  
Fiscal Year Ended June 30, 2011**

**Total Expenses \$3,446,167  
(Expressed in Thousands)**

### ***Business-type Activities:***

- Net assets of the business-type activities increased by \$52.4 million primarily due to a decrease in claims in the Unemployment Insurance Fund and capitalization grants from the federal government in the Clean and Drinking Water State Revolving Funds.

## ***FINANCIAL ANALYSIS OF THE STATE'S FUNDS***

As noted earlier, the State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Some funds are required by law, while others are established internally to maintain control over a particular activity.

### ***Governmental Funds***

The focus of the State's governmental funds is to provide information on near-term inflows and outflows during the fiscal year and on balances of spendable resources as of fiscal year-end. Such information is useful in assessing the State's financing requirements. In particular, fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. However, this measure must be used with care because large portions of the balance may relate to internally imposed limitations, such as statutory language, which could limit resource use (e.g., General Fund Budget Reserve, Dakota Cement Trust Fund, Health Care Trust Fund, Education Enhancement Trust Fund, and Property Tax Reduction Fund), unless appropriated by legislative action as defined by State law.

At the end of the current fiscal year, the State's governmental funds reported combined ending fund balances of \$1.5 billion, an increase of \$156.0 million during the year.

Approximately 45.3%, or \$686.9 million, of the combined ending fund balances, is nonspendable; predominately made up of the Dakota Cement Trust, Health Care Trust, and the Education Enhancement Trust funds to be held as permanent investments. Approximately 32.5%, or \$493.6 million, of the combined ending fund balances, is restricted by outside sources or enabling legislation. 2.4%, or \$36.8 million, of the combined balance is committed by state law and 12.1%, or \$182.8 million, has been assigned internally for specific purposes. The remaining \$117.2 million or 7.7% is unassigned according to GASB 54. Certain resources within the \$117.2 million of the unassigned fund balance have other internally imposed limitations as discussed below. (Please refer to Notes to the Financial Statements for a further explanations and breakdown of these balances.)

The following governmental funds are major funds and had significant impact on the state's financial position during fiscal year 2011:

- ***General Fund.*** The General Fund is the chief operating fund of the State. As a result of the implementation of GASB 54, seven funds previously reported as non-major special revenue funds (Property Tax Reduction Fund, Tourism Promotion Fund, Investment Council Operating Fund, Private Activity Bonds Fund, Tax Relief Fund, Extraordinary Litigation Fund, and Unclaimed Property Administrative Fund) no longer qualify as special revenue funds and have been incorporated into the General Fund as subfunds for financial statement reporting purposes. Thus, the General Fund appears differently in the FY11 financial statements than it has in the past as it will include all of the activity (revenues, expenses, assets, liabilities, and fund equity) of these seven funds. The General Fund and these seven funds were, and will continue to be budgeted for, accounted for and tracked separately on the State's budget and accounting system.

The following table identifies the General Fund beginning and ending fund balances before and after the GASB 54 changes (expressed in thousands):

	<u>General Fund Beginning Fund Balance</u>	<u>General Fund Ending Fund Balance</u>
Fund Balance - General Fund - before GASB 54 Changes	\$ 155,066	\$ 214,180
Changes	Beginning Fund Balance	Ending Fund Balance
Property Tax Reduction - assigned for Education	\$ 68,177	\$ 67,754
Tourism Promotion - assigned for Tourism Promotion	1,806	2,454
Investment Council Operating - assigned for Other	2,212	1,728
Private Activity Bond - assigned for Other	1,173	67
Tax Relief - unassigned	1,546	936
Extraordinary Litigation Expense - unassigned	172	154
Unclaimed Property - unassigned	32	30
<b>Total Changes</b>	<b>75,118</b>	<b>73,123</b>
Fund Balance - General Fund - after GASB 54 Changes	<b>\$ 230,184</b>	<b>\$ 287,303</b>

See the Notes to the Financial Statements for more information on the GASB 54 changes.

At the end of the fiscal year, total fund balance of the General Fund was \$287.3 million (including GASB 54 reclassified subfunds). \$148.1 million of the total fund balance was assigned for specific purposes; \$136.0 million was unassigned with the remaining \$3.2 million as nonspendable. However, it is important to note that some of this unassigned fund balance has other limiting factors that may limit or decrease its availability for general appropriations because it either has another purpose as intended by state law or has internally imposed limitations. Those limitations on the unassigned fund balance include; \$43.4 million is the General Fund Budget Reserve which is created by state law and only to be used to address emergency situations without having to raise taxes or cut spending; and \$1.1 million is intended for use within the GASB 54 reclassified subfunds within the General Fund. Other limitations on the General Fund include:

- \$30.1 million represents tax revenue that was received in FY11, recognized in the General Fund in FY11 for financial reporting purposes, but not distributed on a cash basis to the General Fund until FY12 for purposes of meeting the State's ongoing obligations to the citizens and creditors for the next fiscal year.
- \$73.7 million is not part of cash and cash equivalents, but rather a net effect of receivables and other assets in excess of liabilities.

As a measure of General Fund's liquidity, it may be useful to compare both the assigned and unassigned fund balances to total fund expenditures. The assigned fund balance represents 13.1% of the total General Fund operating expenditures, while the unassigned fund balance (including the Budget Reserve) represents 12.1% of that same amount.

- **Transportation.** The total fund balance at the end of the current fiscal year for the Transportation Fund was \$155.9 million, an increase of \$14.1 million from the prior fiscal year. The increase resulted primarily from an increase in motor fuel and vehicle excise tax receipts and the effects of the economic stimulus projects; which caused a temporary delay in other construction projects that will require the future use of State funds.
- **Dakota Cement Trust.** The total fund balance at the end of the current fiscal year for the Dakota Cement Trust Fund was \$242.7 million, an increase of \$31.7 million from the prior fiscal year. The increase resulted primarily from investment income during the fiscal year.

- **Education Enhancement Trust.** The total fund balance at the end of the current fiscal year for the Education Enhancement Trust Fund was \$377.1 million, an increase of \$50.9 million from the prior fiscal year. The increase resulted primarily from investment income during the fiscal year.

### ***Proprietary Funds***

The State's proprietary funds are presented on the full accrual basis of accounting and include the State's enterprise funds and internal service funds. The following proprietary funds had significant activity or changes to net assets during fiscal year 2011:

- **Lottery Fund.** The Lottery Fund accounts for the operations of the South Dakota State Lottery which markets instant tickets and lotto games, and regulates video lottery to raise revenue for State programs and projects. At the end of the current fiscal year, the Lottery Fund reported total net assets of \$7.05 million, an increase of \$0.02 million in comparison with the prior year. During the current fiscal year, the State Lottery produced income (before transfers) in the amount of \$108.0 million on total revenue of \$144.4 million, compared to the previous fiscal year's income (before transfers) of \$119.9 million on total revenue of \$154.6 million. The decrease in revenues was the result of a decrease in video lottery sales. During fiscal year 2011, the State Lottery distributed approximately \$94.9 million to the Property Tax Reduction Fund, \$6.1 million to the General Fund, \$6.8 million to the Capital Construction Fund, and \$0.16 million to the Department of Human Services.
- **Clean Water State Revolving Fund.** The Clean Water State Revolving Fund program provides low interest loans to governmental entities for wastewater, storm sewer, and nonpoint source pollution projects. Projects with compliance or health and safety concerns receive highest priority. At the end of the current fiscal year, the Clean Water State Revolving Fund reported total net assets of \$196.6 million, an increase of \$23.4 million in comparison with the prior fiscal year. The increase resulted primarily from (1) the receipt of \$15.3 million capitalization grant monies received from the federal government and (2) a transfer in of \$10 million from the Drinking Water State Revolving Fund Program. This was offset slightly by a decrease of \$1.8 million due to operating expenses in excess of revenue from investments, interest, and other sources.
- **Drinking Water State Revolving Fund.** The Drinking Water State Revolving Fund program provides low interest loans for drinking water projects. Projects with compliance or health and safety concerns receive highest priority. At the end of the current fiscal year, the Drinking Water Revolving Fund reported total net assets of \$144.9 million, an increase of \$11.8 million in comparison with the prior year. This increase resulted primarily from the receipt of \$27.0 million of capitalization grant monies received from the federal government. This was offset by (1) a \$10 million transfer to the Clean Water State Revolving Fund program and (2) \$5.2 million of operating expenses in excess of revenue from investments, interest and other sources.

### ***Budgetary Highlights***

The following analysis is based on the Budgetary Comparison Schedules included in the Required Supplementary Information that immediately follows the basic financial statements.

The original budget is defined as the first complete appropriated budget, adjusted by reserves, transfers, allocations, supplemental appropriations, and other legally authorized legislative and executive changes before the beginning of the fiscal year. Any such transaction that is authorized as a legislative or executive change before the beginning of the fiscal year is included in the original budget, regardless of the effective date of the document loaded on the accounting system. The original budget also includes any actual appropriation amounts carried forward by law from prior years, including special appropriations, maintenance and repair, and carryovers. The final budget is defined as the original budget, adjusted by all reserves, transfers, allocations, supplemental appropriations, and other legally authorized legislative and executive changes after the beginning of the fiscal year.

**General Fund.** The difference between the original and the final amended budget was a \$15.7 million decrease in appropriations. That decrease can be attributed to one separate appropriation area comprised of general bill adjustments.

The general fund had general bill adjustments that decreased the original budget by \$15.7 million during fiscal year 2011 which consisted of the following:

- \$.2 million increase in appropriations to the Department of Game, Fish & Parks for programs in State Parks and Recreation.
- \$23.5 million decrease in appropriations to the Department of Social Services for programs in Economic Assistance, Medical and Adult Services, and Children's Services.
- \$5.7 million increase in appropriations to the Department of Education for programs in Postsecondary Vocational Education.
- \$10.6 increase in appropriations to the Board of Regents for programs at the University of South Dakota, South Dakota State University, South Dakota School of Mines and Technology, Northern State University, Black Hills State University, and Dakota State University.
- \$1 million decrease in appropriations to the Department of Corrections for programs in Central Services, Mike Durfee State Prison, the State Penitentiary, the Women's Prison, Community Service, Parole Services, Juvenile Community Corrections, Youth Challenge Center, Patrick Henry Brady Academy, State Treatment and Rehabilitation Academy, and Qwest and ExCEL.
- \$7.7 million decrease in appropriations to the Department of Human Services for programs in Developmental Disabilities, Alcohol and Drug Abuse, Rehabilitation Services, the Human Services Center, and Community Mental Health.

The effect of the general bill adjustments resulted in a \$15.7 million dollar decrease in appropriations. Overall, there were no over-expenditures by any State departments. The difference between the final amended budget and actual spending was \$7.5 million below final budgeted estimates.

## ***CAPITAL ASSETS AND DEBT ADMINISTRATION***

### ***Capital Assets***

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2011 is \$3.4 billion (net of accumulated depreciation). This investment in capital assets includes land; land improvements; land improvements – roads; buildings; equipment; vehicles; infrastructure; and construction in progress.

**State of South Dakota**  
**Capital Assets - Primary Government**  
**(Expressed in Thousands)**

	<b>Governmental Activities</b>		<b>Business-type Activities</b>		<b>Total Primary Government</b>	
	<b>2011</b>	<b>2010</b>	<b>2011</b>	<b>2010</b>	<b>2011</b>	<b>2010</b>
Land	\$ 111,665	\$ 102,479	\$ 295	\$ 295	\$ 111,960	\$ 102,774
Land Improvements	28,093	27,559	924	924	29,017	28,483
Land Improvements - Roads	598,800	596,572	-	-	598,800	596,572
Buildings	411,562	370,686	4,008	4,008	415,570	374,694
Equipment	168,904	156,036	4,520	4,542	173,424	160,578
Intangible Assets – Software	49,069	43,468	725	725	49,794	44,193
Vehicles	132,811	124,829	-	-	132,811	124,829
Infrastructure	3,315,207	3,250,872	-	-	3,315,207	3,250,872
Construction in Progress	269,930	216,372	-	-	269,930	216,372
<b>Total Capital Assets</b>	<b>5,086,041</b>	<b>4,888,873</b>	<b>10,472</b>	<b>10,494</b>	<b>5,096,513</b>	<b>4,899,367</b>
Accumulated Depreciation	(1,697,984)	(1,622,202)	(6,112)	(5,631)	(1,704,096)	(1,627,833)
<b>Total Capital Assets, Net</b>	<b>\$ 3,388,057</b>	<b>\$ 3,266,671</b>	<b>\$ 4,360</b>	<b>\$ 4,863</b>	<b>\$ 3,392,417</b>	<b>\$ 3,271,534</b>

The most significant capital asset the State reported in fiscal year 2011 was infrastructure assets and related land and land improvements. Infrastructure assets are long-lived capital assets that normally are stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets. Examples of infrastructure assets include roads, bridges, tunnels, drainage systems, water and sewer systems, dams, and lighting systems. Infrastructure assets account for \$2.8 billion (net of accumulated depreciation), which is 81.0% of total capital assets (net of accumulated depreciation).

The State's investment in capital assets (net of accumulated depreciation) increased from fiscal year 2010 to 2011 by approximately 3.7%. The change was primarily due to ongoing construction and completion of segments of infrastructure - highways, bridges, and railroads. Construction in progress for highways, bridges, and railroads increased by \$106.5 million and decreased by \$63.6 million (projects completed and capitalized). Land and land improvements increased by \$9.7 million which consisted of land purchased by the Department of Game Fish and Parks (\$9.0 million) and by the Department of Transportation (\$0.4 million) and land improvements by the Department of Military and Veterans Affairs (\$0.2 million). Building and building improvements increased by \$40.9 million. This was largely due to the completion of vocational education building completions at Lake Area Technical Institute and Mitchell Technical Institution (\$17.0 million), the Mickelson Center (\$0.8 million), the Pierce, Kanner and Kyle building improvements (\$1.0 million), the Capital Plaza renovation (\$2.8 million), the McKay Building renovation (\$4.6 million), the Human Services Admissions building (\$0.7 million), the Aberdeen Maintenance Shop additions (\$0.7 million), the Missouri Rivers Fisheries Center (\$3.7 million) and Norgello building and dam renovations (\$2.9 million). Equipment assets increased by \$12.8 million. This was largely due to the purchase of new equipment and replacing of aged equipment by the Department of Transportation (\$5.4 million, net of disposals) the Bureau of Administration (\$1.2 million, net of disposals), the Department of Game, Fish & Parks (\$1.5 million, net of disposals), the Department of Corrections (\$3.3 million, net of disposals) and by the Department of Health (\$0.8 million, net of disposals). Intangible assets increased by \$5.6 million. This is largely due to new software for the Department of Transportation (\$0.6 million, net of disposals) and the Department of Corrections (\$0.9 million). Vehicles, which include trucks, cars, pickups and other vehicles, increased by \$8.0 million largely due to replacing aged vehicles by the Department of Transportation (\$4.2 million, net of disposals) and the Department of Game Fish and Parks (\$0.8 million, net of disposals). Construction in progress, excluding construction in progress for highways, bridges, and railroads, increased by \$53.6 million. This was largely due to new and ongoing projects by the Department of Military and Veterans Affairs (\$25.3 million, net of projects completed and capitalized), the

Department of Game, Fish and Parks (\$0.9 million, net of projects completed and capitalized), the Department of Social Services (\$2.7 million, net of projects completed and capitalized), the Unified Judicial System (\$2.6 million, net of projects completed and capitalized), and the Department of Transportation (\$0.9 million, net of projects completed and capitalized).

More detailed information on the State's capital assets can be found in Notes to the Financial Statements.

### ***Debt Administration***

The authority of the State to incur limited debt for specific purposes is described in Article XIII, Section 2, of the State's Constitution. Generally, the State Constitution prohibits the State from having general obligation indebtedness in excess of \$100,000. General obligation indebtedness of the State is backed by the full faith and credit of the State and reported as part of the governmental activities in the State's basic financial statements. At June 30, 2011 the issuer credit rating (ICR) for the State of South Dakota from Standard and Poor's was AA+.

The South Dakota Building Authority was created and organized by Chapter 5-12 of the South Dakota Codified Laws. The South Dakota Building Authority issues bonds, certificates of participation, and trust certificates to finance the cost to acquire, construct, remodel, maintain, and equip buildings and other facilities of State departments and institutions. These obligations are payable from revenue generated through lease agreements between the South Dakota Building Authority and other State departments and institutions. The South Dakota Building Authority is a blended component unit of the State. On March 29, 2011, the South Dakota Building Authority rating from Standard and Poor's was upgraded. Thus at June 30, 2011, the uninsured rating was Aa2 from Moody's and AA from Standard and Poor's. The indebtedness, bonds, or obligations incurred or created by the South Dakota Building Authority may not be or become a lien, charge, or liability against the State. The bonds and all related financial transactions used to finance buildings of State departments and institutions are reported as part of governmental activities in the State's basic financial statements, except for debt of universities, which is reported as part of the discretely presented component unit information. The South Dakota Building Authority issued \$5.6 million in Taxable Revenue Bonds (Recovery Zone Economic Development Bonds) and \$3.9 million in Taxable Revenue Bonds for Governmental Activities. The State incurred no new long-term general indebtedness under Business-type Activities. The South Dakota Building Authority issued \$11.4 million in Taxable Revenue Bonds (Build America Bond) and \$9.0 million in Taxable Revenue Bonds (Recovery Zone Economic Development Bonds) for Higher Education (a discretely presented component unit).

The Educational Enhancement Funding Corporation (EEFC) is a special purpose corporation, organized by Chapter 5-12 of the South Dakota Codified Laws. EEFC is an instrumentality of, but separate and apart from the State. Although legally separate from the State, EEFC is a blended component unit of the State and accordingly, is included in the State's financial statements. At June 30, 2011, the EEFC Series 2002A and 2002B Bonds had a rating of Baa3 from Moody's and BBB from Standard and Poor's. On September 8, 2011, Moody's Investor Services upgraded the Series Bonds from Baa3 to A1 and A3, respectively. Pursuant to a Purchase and Sale Agreement with the State, the State sold to EEFC its future rights, title, and interest in the Tobacco Settlement Revenues (TSRs) under the Master Settlement Agreement. The purchase price of the State's future right, title and interest in the TSRs has been financed by the issuance of the Bonds and the Residual Certificate. The Residual Certificate represents the right of the State to receive all amounts required to be distributed after payment of all outstanding bonds and other liabilities of EEFC as set forth in the Trust Indenture. Pursuant to the resolution, EEFC is prohibited from selling additional bonds, other than refunding bonds. The bonds represent limited obligations of EEFC, payable solely from and secured solely by the pledged TSRs and the pledged amounts. The bonds are not a debt or liability of the State or of any political subdivision or agency thereof. EEFC has no taxing power. During the year, EEFC incurred no new long-term general indebtedness.

The South Dakota Conservancy District issues revenue bonds for the Clean Water State Revolving Fund (CWSRF) and for the Drinking Water State Revolving Fund (DWSRF). These funds provide low interest loans or other types of financial assistance for the construction of publicly-owned wastewater treatment facilities; implementation of nonpoint source management programs; and construction and maintenance of drinking water facilities respectively. At June 30, 2011, the South Dakota Conservancy District had maintained its long-term rating of Aaa from Moody's and AAA from Standard & Poor's on all outstanding State Revolving Fund Program Bonds. The South Dakota Conservancy District bonds do not constitute a debt or liability of the State or a pledge of the faith and credit of the State.

The bonds are paid solely from CWSRF and DWSRF loan repayments. The revenue bonds and related financial transactions for the CWSRF and DWSRF are reported as part of the business-type activities in the State's basic financial statements. During the current fiscal year, the South Dakota Conservancy District issued Bond Anticipation Notes (BANS) for the CWSRF program with a par amount of \$36.5 million to pay off the 2009 BANS. The District also issued BANS for the DWSRF program with a par amount of \$17.7 million to pay off the 2009 BANS. The maturity date of the 2010 BANS was 9/30/2011. The District also issued \$92.4 million in bonds on 12/28/2010. There were two series associated with this issue. Series 2010A was Taxable Revenue Bonds (Build America Bonds) totaling \$38.7 million. (Of this amount, \$26.0 million was for the CWSRF Program and \$12.7 million was for the DWSRF Program.) Series 2010B was Tax Exempt Revenue Bonds totaling \$53.7 million. (Of this amount, \$29.7 million was for the CWSRF Program and \$24.0 million was for the DWSRF Program.) All of the Series 2010A Bonds and a portion of the Series 2010B Bonds were used to advance refund the Series 2010 BANS. The balance of the Series 2010B Bonds were used to refund on a current basis the Series 1998A Bonds (1/10/2011 redemption date) and the Series 2008 Bonds (2/1/2011 redemption date).

At June 30, 2011, primary government had total notes and bonded debt outstanding as follows:

**State of South Dakota**  
**Outstanding Loans and Bonded Debt**  
**(Expressed in Thousands)**

	<b>Governmental Activities</b>		<b>Business-type Activities</b>		<b>Total Primary Government</b>	
	<b>2011</b>	<b>2010</b>	<b>2011</b>	<b>2010</b>	<b>2011</b>	<b>2010</b>

Additional information on the State's long-term debt obligations can be found in the Notes to the Financial Statements.

## ***ECONOMIC CONDITIONS AND OUTLOOK***

Nonfarm employment in South Dakota increased during fiscal year 2011, which was the first yearly increase in employment since the 2007-2009 national recession ended. In fiscal year 2011, nonfarm employment in the State increased 0.9%, or 3,600 jobs. South Dakota's employment growth during the fiscal year performed better than the national growth rate of 0.7% and was the 10<sup>th</sup> year in a row that South Dakota's growth rate was higher than the national growth rate. The unemployment rate in South Dakota remained one of the lowest in the nation in fiscal year 2011. South Dakota's unemployment rate was 4.7% in June 2011, while the U.S. unemployment rate was 9.1% the same month. In calendar year 2011, the most recent annual data that is available, South Dakota's personal income grew 6.2%, which exceeded the national growth rate of 5.1%. South Dakota's personal income growth rate ranked 5<sup>th</sup> of all states in calendar year 2011.

Further information on the South Dakota economy and economic outlook is included in the transmittal letter.

## ***REQUESTS FOR INFORMATION***

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. If you have any questions about this report, or need additional financial information, please contact the Bureau of Finance and Management, 500 East Capitol Avenue, Pierre, South Dakota 57501, (605) 773-3411.

The State's discretely presented component units, with the exception of Higher Education and the Value Added Finance Authority, issue their own separately audited financial statements. These statements may be obtained by directly contacting the Department of Legislative Audit at 427 South Chapelle, c/o 500 East Capitol, Pierre, South Dakota 57501, (605) 773-3595.

## ***BASIC FINANCIAL STATEMENTS***

***The “Basic Financial Statements” include the Government-Wide Financial Statements, the Governmental Fund Financial Statements, the Proprietary Fund Financial Statements, the Fiduciary Fund Financial Statements, and the accompanying Notes to the Financial Statements. The following individual statements are included:***

***Government-Wide Financial Statements – Statement of Net Assets***

***Government-Wide Financial Statements – Statement of Activities***

***Balance Sheet – Governmental Funds***

***Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets***

***Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds***

***Reconciliation of the Change in Fund Balances of Governmental Funds to the Statement of Activities***

***Statement of Net Assets – Proprietary Funds***

***Statement of Revenues, Expenses, and Changes in Fund Net Assets – Proprietary Funds***

***Statement of Cash Flows – Proprietary Funds***

***Statement of Fiduciary Net Assets – Fiduciary Funds***

***Statement of Changes in Fiduciary Net Assets – Fiduciary Funds***

***Notes to the Financial Statements***

**STATE OF SOUTH DAKOTA**

**STATE OF SOUTH DAKOTA**  
**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET**  
**TO THE STATEMENT OF NET ASSETS**  
**June 30, 2011**  
**(Expressed in Thousands)**

**Total Fund Balances - Governmental Funds** **\$ 1,517,396**

**Amounts reported for governmental activities in the statement of net assets are different because:**

Capital assets used in governmental activities are not financial resources and are therefore not reported in the funds. These assets consist of:

Land and Construction in Progress	985,509	
Infrastructure	3,315,208	
Other Capital Assets	694,068	
Accumulated Depreciation	<u>(1,629,213)</u>	
<b>Total Capital Assets</b>		<b>3,365,572</b>

Some of the state's revenues will be collected after year-end but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds.

14,514

Internal service funds are used by management to charge costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets.

25,988

Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities are:

Bonds and Notes	(265,739)	
Accrued Interest on Bonds	(10,434)	
Capital Leases	(36,113)	
Compensated Absences	(44,459)	
Unclaimed Property	(1,569)	
Net OPEB Obligation	(12,885)	
Pollution Remediation	<u>(11,669)</u>	
<b>Total Long-Term Liabilities</b>		<b><u>(382,868)</u></b>

**Net Assets of Governmental Activities**

**\$ 4,540,602**

**Net Change in Fund Balances - Total Governmental Funds** **\$ 155,981**

**Amounts reported for governmental activities in the statement of activities are different because:**

Capital Outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over the useful lives as depreciation expense. In the current period, these amounts are:

Capital Outlay	211,414	
Depreciation Expense	(85,710)	
Excess of Capital Outlay Over Depreciation Expense	125,704	125,704

The net effect of various miscellaneous transactions involving capital assets, including sales, donations and trade-ins is to decrease net assets. (4,949)

Capital leases entered into during the fiscal year are reported as other financing sources in the governmental funds. However, it is not reported in the statement of activities as it is shown as an increase in long-term liabilities in the statement of net assets. (19,465)

Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. In the current year, these amounts consist of:

Bond Principal Retirement	22,966	
Capital Lease Payments	1,715	
Total Long-Term Debt Repayment	24,681	24,681

Internal service funds are used by management to charge costs of certain activities to individual funds. The net revenue (expense) of certain activities of internal service funds is reported in governmental activities. (3,869)

Because some revenues will not be collected until several months after the state's fiscal year ends, they are not considered 'available' revenues and are deferred in the funds. Deferred revenues increased (decreased) by this amount this year. (180)

The issuance of bonds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.

Bonds Issued	(10,306)	
Bond Issuance and Refunding Costs	(179)	
Bond Premium	(175)	
	(10,660)	(10,660)

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:

Net (Increase) Decrease in Accrued Interest	(702)	
(Increase) Decrease in Compensated Absences	436	
(Increase) Decrease in Workers Compensation	175	
(Increase) Decrease in Unclaimed Property	24	
(Increase) Decrease in Net OPEB Obligation	(3,145)	
(Increase) Decrease in Pollution Remediation	(2,688)	
Total Additional Expenditures	(5,900)	(5,900)

**Change in Net Assets of Governmental Activities** **\$ 261,343**

The notes to the financial statements are an integral part of this statement.

# **NOTES TO THE FINANCIAL STATEMENTS**

## **JUNE 30, 2011**

### **1. Summary of Significant Accounting Policies**

#### **A. Basis of Presentation**

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

#### **B. Reporting Entity**

For financial reporting purposes, the State of South Dakota reporting entity includes the primary government and its component units. The primary government consists of state departments, bureaus, boards and commissions. Component units are legally separate governmental organizations for which the State is considered to be financially accountable and other organizations for which the nature of their relationship is such that exclusion would cause the State's financial statements to be misleading or incomplete.

**Blended Component Units** – Blended component units are legally separate entities that are, in substance, part of the State's primary government. The South Dakota Building Authority, South Dakota Conservancy District, Cement Plant Commission and the Education Enhancement Funding Corporation are considered to be blended component units.

**Discretely Presented Component Units** – Discretely presented component units are legally separate organizations that are either financially accountable to the State, or their exclusion would cause the State's financial statements to be misleading or incomplete. Discretely presented component units are reported in separate columns or rows in the government-wide financial statements to emphasize that they are legally separate from the State.

The State's major discretely presented component units are:

- South Dakota Housing Development Authority
- Science and Technology Authority

- Higher Education (Affiliated organizations of Higher Education were excluded from the notes to the financial statements.)

The State's nonmajor discretely presented component units are:

- South Dakota Value Added Finance Authority
- Conservation Reserve Enhancement Program (CREP)
- South Dakota Economic Development Finance Authority

**Related Organizations** – The Health and Educational Facilities Authority is excluded from the reporting entity because the State's accountability does not extend beyond appointing a voting majority of the organization's board members.

Separately issued financial statements of the South Dakota Building Authority, Conservation Reserve Enhancement Program, South Dakota Economic Development Finance Authority, South Dakota Housing Development Authority, and Science and Technology Authority are available from the Department of Legislative Audit, 427 South Chapelle, c/o 500 East Capitol, or by calling (605) 773-3595.

#### **C. Government-Wide and Fund Financial Statements**

The government-wide financial statements include the Statement of Net Assets and Statement of Activities. The Statement of Net Assets and Statement of Activities report all nonfiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities are generally supported by taxes and intergovernmental revenues. Business-type activities are financed in whole or in part

by fees charged to external parties for goods or services. The focus of the government-wide financial statements and notes to the financial statements is the primary government. A separate column is presented for each major discretely presented component unit and a column for all nonmajor discretely presented component units in the aggregate.

The Statement of Net Assets presents the reporting entity's nonfiduciary assets and liabilities, with the difference reported as net assets.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function; and, 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included as program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements, with nonmajor funds being combined into a single column.

#### ***D. Measurement Focus, Basis of Accounting and Financial Statement Presentation***

##### ***Government-Wide Financial Statements***

The Statement of Net Assets and Statement of Activities are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the State receives value without directly giving equal value in exchange, include taxes, grants, and donations. Tax revenue is recognized in the fiscal year in which the related sales, income, or activity being taxed occurred. Revenue from grants and similar items are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been met.

##### ***Governmental Fund Financial Statements***

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period, or soon enough thereafter to pay liabilities of the current period. Sales tax, motor fuel taxes, bank card taxes, grant revenue, investment income, and charges for goods and services are all considered to be susceptible to accrual, if collected within 60 days of the end of the current fiscal year. All other revenue is considered to be measurable and available only when cash is received.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to debt service, compensated absences, capital leases, and claims and judgments are recorded only when payment is due and payable.

##### ***Proprietary, Fiduciary, and Similar Component Units Financial Statements***

The financial statements of the proprietary funds, fiduciary funds, and similar component units are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide financial statements described above. Proprietary funds include both enterprise and internal service fund types.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Revenues and expenses not meeting this definition, such as subsidies and investment earnings are reported as nonoperating.

The State's proprietary funds follow all GASB pronouncements and those Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins that were issued on or before November 30, 1989, except those that conflict with a GASB pronouncement.

## **Financial Statement Presentation**

The State reports the following major governmental funds:

**The General Fund** is the State's primary operating fund. It accounts for all financial resources, except those required to be accounted for in another fund.

**The Transportation Fund** accounts for dedicated state tax revenue for the construction, maintenance, and supervision of state highways and bridges and federal grants received by the Department of Transportation.

**The Social Services Fund** accounts for federal grants received by the Department of Social Services to fund social welfare programs.

**The Dakota Cement Trust Fund** was created with the proceeds from the sale of the State Cement Plant. Income from the fund is used to fund general state government and public school districts.

**The Education Enhancement Trust Fund** accounts for revenue from the tobacco settlement and securitization of future tobacco revenue. Income from the fund is used to fund education enhancement programs.

The State reports the following major proprietary funds:

**The Clean Water State Revolving Fund** is used to provide loans to local governments for wastewater, storm sewer, and nonpoint source pollution control projects.

**The Drinking Water State Revolving Fund** is used to provide loans to local governments for drinking water projects.

**The Lottery Fund** accounts for the operations of the State Lottery.

In addition, the State reports the following fund types:

### **Governmental Funds:**

**Special Revenue Funds** account for specific revenue sources that are legally restricted to expenditures for specific purposes. Special revenue funds account for federal grant programs, taxes with distributions defined by the State Constitution or State laws and other resources restricted as to purpose.

**Debt Service Funds** account for the accumulation of resources for the retirement of long-term debt principal and interest.

**The Capital Projects Fund** administered by the South Dakota Building Authority accounts for resources used for the acquisition or construction of major capital facilities, other than those financed by proprietary, fiduciary, or component units funds.

**The Permanent Fund** administered by the Department of School and Public Lands accounts for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs.

### **Proprietary Funds:**

**Enterprise Funds** report activities for which a fee is charged to external users for goods or services. This fund type is also used when the activity is financed with debt that is secured by a pledge of the net revenues from the fees.

**Internal Service Funds** report activities that provide goods or services to other funds, departments, or agencies of the primary government and its component units or to other governments, on a cost-reimbursement basis. These goods and services included information services, telecommunications, insurance risk pools, and fleet and travel management. In the government-wide financial statements, internal service funds activity is included in governmental activities.

### ***Fiduciary Funds:***

**Pension Funds** account for resources that are required to be held in trust for the members and beneficiaries of the State's defined benefit pension plan and the State Cement Plant defined benefit plan.

**Private Purpose Trust Funds** account for resources of all other trust arrangements in which principal and income benefit individuals, private organizations or other governments. The Common School Fund accounts for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support local school districts.

**Agency Funds** report assets and liabilities of resources held for temporary investment and remittance of the resources to individuals, private organizations, or other governments. Examples of funds in this category include local government tax collections by the Department of Revenue and Regulation, child support payments collected by the Department of Social Services and employee payroll withholdings by the State Auditor.

### ***E. Budgetary Accounting***

Agencies and departments submit budget requests to the Bureau of Finance and Management. The commissioner approves the bureau's budget recommendation that is presented to the Governor for his consideration. The Governor's decisions are presented to the legislature in the Governor's budget book.

The financial plan for each fiscal year is adopted by the legislature by the passage of a general appropriations act, special appropriations acts, and deferred maintenance appropriations. The formal budget approved by the legislature does not include budgeting for revenues and other financing sources/uses.

The general appropriations act includes only appropriations for ordinary current and capital expenses of the executive, legislative, and judicial branches of the State. State law classifies appropriations into general, federal, and other fund budget classifications. The budget is controlled at the program level for personal services and operating expenses. Detailed appropriation information at this level is presented in the Available Funds Report that is available at the Bureau of Finance and Management.

The State's annual budget is prepared on the cash basis of accounting. Encumbrance accounting is utilized to reserve a portion of the budget to future periods for payment of purchase orders, contracts and other commitments. Encumbrances at June 30, 2011 totaled \$27,783,971. The encumbrance amount is broken down by Major Fund and Nonmajor Fund below:

<b>Fund</b>	<b>Amount Encumbered</b>
Major Fund:	
General Fund	\$ 3,859,886
Transportation	8,797,955
Social Services	16,000
Non-Major:	
Non-Major Total	15,110,130
<b>TOTAL</b>	<b>\$ 27,783,971</b>

### ***F. Assets, Liabilities, and Net Assets/Fund Balance***

#### ***Cash and Cash Equivalents and Investments***

Cash includes cash on hand, cash in local banks, and cash in the State Treasury. Cash equivalents are valued at cost plus accrued interest. Cash equivalents include short-term investments with original maturities of three months or less. Cash balances of most state funds are pooled and invested by the State Investment Officer. Investment income is allocated to participating funds per South Dakota law. Participating funds are determined by the Bureau of Finance and Management and approved by the Joint Interim Appropriations Committee of the Legislature.

Investments, as reported on the balance sheet, represent all long-term investments not considered cash equivalents. Investments include corporate stocks, bonds, convertible debt, U.S. government and agency securities, repurchase agreements, annuity contracts, investment contracts, international securities, private equity and real estate. Investments are reported at fair value.

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Fair values for the fixed income securities are obtained from Bloomberg Financial Markets, Bank of America Merrill Lynch, and Citigroup Global Markets. Domestic and Canadian equity security fair values are obtained from FT Interactive Data, non-Canadian foreign equity security fair values are obtained from Exshare, and spot foreign currency exchange rates are obtained from Reuters. Investments denominated in foreign currencies and foreign currency cash balances are translated into U.S. dollars using the year-end spot foreign currency exchange rates. Fair values of foreign currency forward contracts are obtained from Bloomberg Financial Markets. Fair values of limited partnership investments are based on valuations on the underlying companies of the limited partnerships as reported by the general partner.

For alternative investments where no readily available market value exists, management, in consultation with their investment managers, values these investments in good faith based upon audited financial statements or other information provided by the underlying investment managers.

Futures contracts are utilized to adjust the portfolio asset mix. The fair value of the equity securities futures position is determined using Standard & Poor's contract data. The fair value of the fixed income futures position is determined by using the U.S. Treasury note and bond contracts information and the Citigroup Broad Investment Grade Index. Changes in the fair value of these futures contracts are recognized as gains or losses in the period of change.

### ***Receivables***

Receivables in the governmental and business-type activities consist mainly of amounts due from component units, other governments, loans and customers.

### ***Inventories***

Inventories reported in the governmental fund types are reported at cost using the weighted average cost method. Proprietary fund type inventories are valued at the lower of cost or market, using the moving average cost method. Inventories reported in the Higher Education component unit discrete presentation are reported at cost using the FIFO method, except livestock inventories, which are reported at June 30, 2011 market price. Inventories are expensed using the consumption method.

Federal commodities on hand are reported as inventories, offset by deferred revenue. Commodities are reported at fair value established by the federal government at the date received. At June 30, 2011, the commodities inventory was reported in the amount of \$591,000.

### ***Capital Assets***

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at cost, or estimated historical cost, if original cost records are not available. Donated property, plant, and equipment are valued at fair market value at the date of donation. Property, plant, and equipment acquired through capital leases are capitalized at fair market value at the inception of the lease.

All land is capitalized regardless of cost. Land improvements are capitalized when the cost of the improvement is \$50,000 or more. Buildings and building improvements are capitalized when the cost is \$100,000 or more. Equipment (including purchased software licenses) is capitalized when the cost of individual items is \$5,000 or more. Infrastructure assets are capitalized when the cost of the assets is \$1,000,000 or more for governmental funds and fiduciary funds, and \$50,000 or more for proprietary funds and component units. Intangible assets such as easements, patents, trademarks, internally generated computer software, etc. (as defined by GASB Statement 51) are capitalized when the cost is \$250,000 or more. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an assets life are not capitalized.

Depreciable capital assets of the primary government, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

Land Improvements	20-30
Buildings and Improvements	15-50
Infrastructure	20-99
Equipment	3-17
Intangible Assets	3-25

The State owns works of art and historical treasures that have not been capitalized and depreciated because the assets cannot be reasonably valued and/or the assets have inexhaustible useful lives. Works of art and historical treasures include items such as statues, monuments, historical documents, paintings, artifacts, etc. Higher Education, a business-type activity discretely presented component unit, adopted the State's policy on capitalizing historical treasures and collections. The exceptions to this policy are the Memorial Art Center Collection at the South Dakota State University and the Oscar Howe paintings collection at the University of South Dakota, which were capitalized as of June 30, 1999. The collections are valued at the historical cost or estimated fair market value at the time of donation. The reported capitalized value of these collections was \$8,260,945 and \$375,585, respectively, as of June 30, 2011. All proceeds from the sale of items within these collections will be used to acquire other items for the collections.

### ***Long-term Obligations***

In the government-wide financial statements and proprietary fund financial statements, long-term obligations are reported as liabilities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the bonds outstanding method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### ***Net Assets and Fund Balances***

The difference between assets and liabilities is "Net Assets" on the government-wide, proprietary, and fiduciary funds financial statements and "Fund Balance" on the governmental fund financial statements. Net assets are reported in three categories:

***Invested in capital assets, net of related debt*** is a category reported in the government-wide Statement of Net Assets and consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

***Restricted net assets*** consist of assets that have externally imposed constraints placed on them by either creditors, grantors, contributors, laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation of the State.

***Unrestricted net assets*** consist of assets that do not meet the definition of the two preceding categories.

The state's policy is that restricted amounts are spent first, when expenditures are incurred for purposes of which multiple resources are available within a fund.

In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the State is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund Balances can be reported in five different categories:

***Nonspendable fund balance*** includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items

that are not expected to be converted to cash, for example, inventories and prepaid amounts. It also includes the long-term amount of loans and notes receivable, as well as property acquired for resale.

**Restricted fund balance** consists of assets that have externally imposed constraints placed on them by either creditors, grantors, contributors, laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation of the State.

**Committed fund balance** represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the State Legislature through legislation passed into law.

**Assigned fund balance** includes amounts that are constrained by the State's intent to be used for specific purposes, but are neither restricted nor committed. Assignments of fund balance are created by the executive branch or by directive of the Appropriations Committee of the Legislature or in some cases by passage of an appropriation. In governmental funds other than the General Fund, assigned fund balance also represents the remaining amount that is not restricted or committed.

**Unassigned fund balance** represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. Unassigned fund balance also includes negative residual balances in other governmental funds.

The state's policy is that restricted amounts are spent first, then committed, assigned and finally unassigned when expenditures are incurred for purposes of which multiple resources are available within a fund.

### ***G. Compensated Absences***

All full-time and permanent part-time employees earn annual leave and sick leave. Employees earn fifteen days annual leave per year that can be accumulated to thirty days, except for employees with more than fifteen years of employment, who earn twenty days annual leave per year that can be accumulated to forty days. Upon termination, employees receive payment for their accumulated annual leave. Employees earn fourteen days sick leave per year. Unless dismissed for cause, employees who terminate after seven years of continuous employment, receive payment for one-fourth of their accumulated sick leave balance, not to exceed four hundred eighty hours.

A liability has been recorded in the government-wide and fund financial statements for compensated absences in accordance with GASB statements.

### ***H. Lottery Security Deposits***

State law requires video lottery operators to furnish security to the Lottery. Security may be in the form of a surety bond, deposit in cash, an irrevocable letter of credit, or a certificate of deposit issued by a South Dakota financial institution with the Lottery endorsed on it as a payee. As of June 30, 2011, the amount of certificate of deposits being held by the Lottery was \$456,378 and is included in cash and cash equivalents on the balance sheet. The amount of \$5,821,500 was in the form of surety bonds, deposits in cash, or irrevocable letters of credit and is not reported on the Statement of Net Assets.

### ***I. Interfund Activity and Balances***

Interfund activity, as a general rule, has been eliminated from the government-wide financial statements. An exception to this rule is activities between funds reported as governmental activities and funds reported as business-type activities. An example is the transfer of profits from the Lottery Fund to the General Fund. Elimination of these activities would distort the direct costs and program revenues for the functions concerned.

In the fund financial statements, transfers represent flows of assets (such as goods or cash) without equivalent flows of assets in return, or a requirement for repayment. In addition, transfers are recorded when a fund receiving revenue provides it to the fund which expends the resources. An example is securities taxes collected by the Department of Revenue and Regulation which are deposited into a special revenue fund but are transferred to and expended by the General Fund.

Interfund balances-interfund receivables and payables have been eliminated from the Statement of Net Assets.

## **2. ACCOUNTING CHANGES, RESTATEMENTS, AND RECLASSIFICATIONS**

### **Implementation of GASB Statement No. 54**

During fiscal year 2011, the State implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. The objective of GASB Statement No. 54 is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to honor constraints imposed upon the use of the resources reported in governmental funds. The new fund balance classifications are discussed in detail in Note 1 and Note 16.

GASB Statement No. 54 also provided clarified governmental fund type definitions. As a result, several funds reported in prior years as special revenue funds were determined to no longer meet the special revenue fund criteria. The Property Tax Reduction Fund, Tourism Promotion Fund, Investment Council Operating Fund, Private Activity Bonds Fund, Tax Relief Fund, Extraordinary Litigation Fund, and Unclaimed Property Administrative Fund, which were all previously reported as non-major special revenue funds, have been reclassified as subfunds of the General Fund. As a result of these fund reclassifications, beginning fund balance was increased in the General Fund by \$75,118,000 and decreased in the non-major special revenue fund column by \$75,118,000.

The following table provides additional detail regarding the General Fund fund balances reported on the Governmental Fund Balance Sheet at June 30, 2011 (expressed in thousands):

<b>General Fund Ending Fund Balance - FY10 (June 30, 2010)</b>		
<b>before GASB 54 Reclassifications</b>		<b>\$ 155,066</b>
<b>Reclassifications:</b>		
Property Tax Reduction - assigned for education	\$ 68,177	
Tourism Promotion - assigned for Tourism Promotion	1,806	
Investment Council Operating - assigned for Other	2,212	
Private Activity Bond - assigned for Other	1,173	
Tax Relief - unassigned	1,546	
Extraordinary Litigation Expense - unassigned	172	
Unclaimed Property - unassigned	32	
<b>Total Reclassifications</b>		<b><u>75,118</u></b>
<b>General Fund Beginning Fund Balance - FY11 (July 1, 2010)</b>		
<b>Restated for GASB 54 Reclassifications</b>		<b><u>\$ 230,184</u></b>

### **Restatements-Primary Government**

The beginning net asset balance reported in the governmental activities column of the government-wide financial statements decreased \$16,972,000 because of an asset that was capitalized in error during FY10. The asset was correctly capitalized in FY11.

### **Restatements-Component Units**

The beginning net assets balance reported for Higher Education was decreased by \$5,505,000 for errors in the reporting of cash, receivables, construction in progress, fixed assets, interagency eliminations, and other miscellaneous reporting errors in prior years.

The South Dakota Economic Development Finance Authority implemented an allowance for 1% for the pooled loans during the year ending June 30, 2011. The amount reported as beginning net assets was decreased by \$255,913 for recognition of the allowance associated with prior years.

### ***Recently Issued Pronouncements***

In November 2010, the GASB issued Statement 60, Accounting and Financial Reporting for Service Concession Arrangements. This Statement provides accounting and financial reporting guidance for service concession arrangement issues. The requirements of GASB Statement No. 60 are effective for the State's fiscal year 2013 financial statements.

In November 2010, the GASB issued Statement 61, The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34. This statement modifies certain component unit requirements in the financial reporting entity. The requirements of GASB Statement No. 61 are effective for the State's fiscal year 2013 financial statements.

In December 2010, the GASB issued Statement 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. This Statement incorporates all 1) Financial Accounting Standards Board (FASB) Statements and Interpretations, 2) Accounting Principles Board Opinions and 3) Accounting Research Bulletins of the American Institute of Certified Public Accountants' (AICPA) Committee on Accounting Procedure, issued on or before November 30, 1989, which do not conflict with or contradict GASB pronouncements into the GASB's authoritative literature. The requirements of GASB Statement 62 are effective for the State's fiscal year 2013 financial statements.

In June 2011, the GASB issued Statement 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position. This Statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. The requirements of GASB Statement No. 63 are effective for the State's fiscal year 2013 financial statements.

In June 2011, the GASB issued Statement 64, Derivative Instruments: Application of Hedge Accounting Termination Provisions, an amendment of GASB Statement No. 53. This Statement provides financial reporting guidance for derivative instruments and hedge accounting. The requirements of GASB Statement No. 64 are effective for the State's fiscal year 2013 financial statements.

Management has not yet determined the impact that the unimplemented GASB statements will have on the State's financial statements.

## ***3. CASH, DEPOSITS, AND INVESTMENTS***

South Dakota Codified Laws (SDCL) and administrative rules authorize the types of deposits and investments. Most State public funds are invested in the Cash Flow Portfolio using the pooled deposit and investment concept. This concept allows for the deposit and investment of aggregate idle fund monies, while preserving the integrity of fund cash balances of each state fund.

Negative cash balances in funds participating in the Cash Flow Portfolio are reclassified at year-end as interfund payables. The cash and cash equivalents balance in the General Fund was reduced by \$30,402,523 for deficit cash balances that existed in various state funds at June 30, 2011, and is reported as an interfund receivable.

Certain funds and component units have statutory authority to make deposits and investments in specific types of securities, which may be more or less restrictive than the general authority covering the Cash Flow Portfolio. Additionally, bond provisions may require restrictions on types of investments. The State was in compliance with legal requirements governing deposit and investing activities.

### ***A. Primary Government***

Investments of the Primary Government are grouped into four categories, based upon investment objectives and risk. The first category is the Cash Flow Portfolio. This category represents the pooled public funds of the Primary Government (comprising 83% of the Cash Flow Portfolio) and discretely presented component units (comprising 17% of the Cash Flow Portfolio). Higher Education and the Science and Technology Authority are discretely presented component units and have deposits and investments in the Cash Flow Portfolio. Because of the pooled deposit and investment concept of the Cash Flow Portfolio, the discretely presented component units' share of the portfolio cannot be broken out separately for risk disclosure purposes. For risk disclosure purposes, their share of the Cash Flow Portfolio is included in the Primary

Government. The second category is the Retirement Portfolios. This category represents the investments of the South Dakota Retirement System and the Cement Plant Retirement Fund. The third category is the Trust Portfolios. This category includes the portfolios of School and Public Lands, Dakota Cement Trust Fund, Education Enhancement Trust Fund and Health Care Trust Fund. The fourth category is Other Funds. This category represents funds that are not managed by the South Dakota Investment Council (SDIC) and includes Educational Enhancement Funding Corporation, Clean Water State Revolving Fund, Drinking Water State Revolving Fund, Building Authority CREP Program and the Vocational Education Program.

## ***Deposits***

***Custodial Credit Risk.*** Custodial credit risk is the risk that, in the event of the failure of a depository institution, the State of South Dakota will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. Deposits in excess of depository insurance must be 100% collateralized. Collateral is valued at the lower of cost or market as reported in the quarterly call reports prepared by the qualified public depositories pursuant to SDCL 4-6A-7. Collateral is required to be segregated by each depository as approved by the South Dakota Public Deposit Protection Commission. Collateral may not be held in any safety deposit vault owned or controlled either directly or indirectly by the pledging financial institution but must be deposited for safekeeping in a financial institution that is a member of the Federal Reserve. At June 30, 2011, pledged collateral for one depository did not equal at least 100% of the total public deposits in excess of depository insurance. As a result, \$37,219 of the Cash Flow Portfolio's certificates of deposit was exposed to credit risk.

At June 30, 2011, the Retirement Portfolios had bank balances in foreign currencies in various foreign countries. These deposits are not collateralized or covered by depository insurance. As a result, the Retirement Portfolios were exposed to custodial credit risk of \$7,302,082.

At June 30, 2011, the Trust Portfolios had bank balances in foreign currencies in various foreign countries. These deposits are not collateralized or covered by depository insurance. As a result, the Trust Portfolios were exposed to custodial credit risk of \$535,679.

At June 30, 2011, the Other Funds had bank balances that are not collateralized or covered by depository insurance. As a result, the Other Funds were exposed to custodial credit risk of \$485,322.

## ***Investments***

***Securities Lending.*** State statutes and the SDIC policies permit the use of investments for securities lending transactions. These transactions involve the lending of corporate debt, foreign equity securities, and domestic equity securities to broker-dealers for collateral in the form of securities, with the simultaneous agreement to return the collateral for the same securities in the future. All securities loans can be terminated on demand by either the SDIC or the borrower. At year-end, the SDIC has no credit risk exposure to borrowers because the amounts the SDIC owes the borrowers exceed the amounts the borrowers owe the SDIC.

***Custodial Credit Risk.*** The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. No collateral securities were held by the Cash Flow Portfolio, the Retirement Portfolios, or the Trust Portfolios at June 30, 2011, which resulted in no custodial credit risk for those funds. The Other Funds, however, had custodial credit risk totaling \$155,089,827 at June 30, 2011.

***Interest Rate Risk.*** Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. SDIC policy limits or establishes ranges for the durations of the fixed income portfolios held by the various funds.

The Cash Flow Portfolio policy limits average portfolio duration to 2.88 years, and no holding's maturity can exceed 5 years. The Retirement Portfolios fixed income portfolio duration must fall between 70% and 130% of the duration of the Citigroup Broad Investment Grade (BIG) Index. The Trust Portfolios investment-grade fixed income portfolios are benchmarked to the duration of the Citigroup BIG Index. The internally managed high yield fixed income portfolios have a duration range of 70% to 130% of the Citigroup High-Yield Cash Pay Capped Index duration. The Treasury Inflation Protected Securities (TIPS)

investments have a range of 5 to 10 years to maturity at purchase. No formal interest rate risk policy exists for the fixed income portfolios of the Other Funds. The weighted modified durations (in years) of the various funds are listed in the following table (expressed in thousands):

Investment Type	Cash Flow Portfolio		Retirement Portfolios		Trust Portfolios		Other Funds	
	Fair Value	Mod. Dur.	Fair Value	Mod. Dur.	Fair Value	Mod. Dur.	Fair Value	Mod. Dur.
U.S. Treasuries	\$ 25,318	1.39	\$ 111,333	7.45	\$ 22,651	6.71	\$	
U.S. Treasury bills			9,071	.22				
U.S. Treasury STRIPS			37,637	11.89				
U.S. Treasury inflation protected securities					27,990	2.45		
U.S. agencies	167,607	1.63	38,163	3.27	10,408	7.91	12,955	.95
FDIC's Temporary Liquidity Guarantee Program	20,522	1.45	22,591	1.35	3,079	1.45		
U.S. Government-backed loans					2,617	10.44		
Investment grade corporate	738,101	2.16	371,345	3.53	52,759	3.88		
High-yield corporates			147,876	3.28				
High-yield bond mutual fund					9,124	3.80		
Mortgage-backed securities			309,448	3.58	49,998	3.53		
Mutual funds			119,078					
Municipal bonds					116,680	4.60		
Investment agreements							142,135	14.28
Total	<u>\$ 951,548</u>		<u>\$ 1,166,542</u>		<u>\$ 295,306</u>		<u>\$ 155,090</u>	
Portfolio modified duration		2.03		3.72		4.34		13.17

**Credit Risk.** Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the State of South Dakota. SDIC policy establishes a percentage range and a normal allocation to various credit risk categories. The Cash Flow Portfolio actively managed portion can invest 4% of the portfolio into each corporate security rated Aaa or Aa, 2% in A-rated, 1% in Baa1 or Baa2, and .5% in individual holdings of corporate securities rating Baa3. The maximum overweight of Baa3 rated holdings versus the benchmark is 5% of the Cash Flow Portfolio. The SDIC sets the investment policy annually for the Trust Portfolios and the Retirement Portfolios. This policy establishes the average percentage invested in each asset category and the fund allocation range that each asset category can vary during the fiscal year. No formal credit risk policy exists for the Other Funds. As of June 30, 2011, the portfolios held the following investments, excluding those issued by or explicitly guaranteed by the U.S. Government which are not considered to have credit risk. The investments are grouped as rated by Moody's Investors Service (expressed in thousands):

Moody's Rating	Cash Flow Portfolio	Retirement Portfolios	Trust Portfolios	Other Funds
	Fair Value	Fair Value	Fair Value	Fair Value
Aaa	\$ 262,884	\$ 422,864	\$ 80,249	\$ 15,415
Aa	233,144	52,933	80,335	6,611
A	428,105	135,051	50,739	9,456
Baa	51,744	136,463	18,854	100,186
Ba		54,615	4,169	
B		36,899	4,057	
Caa		22,864	2,516	
Ca		1,927	209	
C		69,589		
P-1				23,422
Unrated			9,880	27,816
Total	<u>\$ 975,877</u>	<u>\$ 933,205</u>	<u>\$ 251,008</u>	<u>\$ 182,906</u>

**Foreign Currency Risk.** Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. The Retirement and Trust Portfolios' exposure to foreign currency risk is derived from their positions in foreign currency and foreign currency-denominated equity investments. The Retirement and Trust Portfolios do not hedge foreign currency back to U.S. dollars (to match the unhedged benchmark) but do allow hedging under certain circumstances when deemed appropriate by the State Investment Officer and portfolio manager. The Retirement and Trust Portfolios' exposure to foreign currency risk at June 30, 2011, are as follows (in U.S. dollar fair value, expressed in thousands):

	Retirement Portfolios				Trust Portfolios			
	Equities	Fixed Income	Cash	Total	Equities	Cash	Total	
	U.S.Dollar Fair Value	U.S. Dollar Fair Value	U.S Dollar Fair Value		U.S.Dollar Fair Value	U.S Dollar Fair Value		
Australian Dollar	\$ 9,247	\$	\$ 46	\$ 9,293	\$	\$		
Brazilian Real	1,807		36	1,843				
British Pound	250,416		1,626	252,042	25,101	73	25,174	
Canadian Dollar	61,239		394	61,633	2,371	155	2,526	
Danish Kroner	5,427		1	5,428				
Euro	313,187		650	313,837	32,004	127	32,131	
Hong Kong Dollar	3,903		85	3,988				
Hungarian Forint	673			673				
Israeli Shekel	445			445				
Japanese Yen	209,179		4,173	213,352	22,598	181	22,779	
Korean Won	14,024			14,024				
New Zealand Dollar	1,113			1,113				
Norwegian Krone	3,196		59	3,255				
Singapore Dollar	308			308				
Swiss Franc	201,963		232	202,195	24,051		24,051	
Turkish Lira	501			501				
Total Fair Value	\$ 1,076,628	\$ 0	\$ 7,302	\$ 1,083,930	\$ 106,125	\$ 536	\$ 106,661	

Investments with limited partnerships and certain global equity investments with outside managers, which are not included in the table above, may expose the State to additional foreign currency risk. For the Trust Portfolios, the total fair value of investments in real estate and private equity limited partnerships as of June 30, 2011 was \$141,293,034. For the Retirement Portfolios, the total fair value of investments in real estate and private equity limited partnerships as of June 30, 2011 was \$2,481,485,247. The total fair value of global equity investments managed by outside managers was \$201,009,777. The total fair value of arbitrage equity investments managed by outside managers was \$91,894,533.

**Concentration of Credit Risk.** Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issuer. The Cash Flow Portfolio has a policy in place limiting its investments in individual holdings. Information regarding the Cash Flow Portfolio policy is located in the Credit Risk section. The SDIC does not have a formal policy in place to limit investments in any particular issuer for the Retirement Portfolios and Trust Portfolios. Additionally, there are no single issuer exposures (excluding those issued by or explicitly guaranteed by the U.S. Government, or involving mutual funds or investment pools) within the portfolios that comprise 5% of the overall portfolios at June 30, 2011.

### **Derivative Financial Instruments in Primary Government**

**Retirement Portfolios.** Derivatives are generally defined as contracts whose value depends on, or derives from, the value of an underlying asset, reference rate or index. The Retirement Portfolios are exposed to a variety of derivative products through the investment management of the SDIC and their outside managers. The following notes detail the derivatives instruments used in the SDIC's internally managed portfolios. All of the SDIC's derivatives are classified as investment derivatives.

**Futures Contracts.** A futures contract is a contract to buy or sell units of an index or financial instrument at a specified future date at a price agreed upon when the contract is originated. The SDIC purchases and sells financial and interest rate futures as a means of adjusting the Retirement Portfolios mix and at a lower transaction cost substitute for transactions that would otherwise occur in the underlying portfolios. During fiscal year ended June 30, 2011, S&P 500 futures and 10-year U.S. Treasury note futures were utilized. Upon entering into such a contract, the SDIC pledges to the broker cash or U.S.

government securities equal to the minimum initial margin requirement of the futures exchange. Additionally, the portfolios receive or pay a daily variation margin, which is an amount of cash equal to the daily fluctuation in value of the contract. The net change in fair value from futures contracts for fiscal year ended June 30, 2011 was \$6,950,011. Futures contracts outstanding at June 30, 2011 were as follows:

	Open Positions	Contracts	Notional Contract size	Fair Value
U.S. Treasury note due September 2011	Long	1,010	100,000 par value 6% U.S. Treasury note	\$ 1,839,282
S&P 500 Index due September 2011	Short	(280)	\$250 x S&P 500 futures price	(3,250,000)
S&P 500 Index due September 2011	Long	1	\$250 x S&P 500 futures price	328,875

**Foreign Currency Forward Contracts.** The SDIC enters into foreign exchange forward contracts to manage foreign currency exposure, as permitted by portfolio policies. The net change in fair value from foreign currency forward contracts for fiscal year ended June 30, 2011 was \$32,047,449. At June 30, 2011, the foreign currency forward contracts outstanding were as follows:

Description	Notional Amount	Maturity Date	Fair Value
Forward sale	(723,840) CAD	7/5/2011	3,276
Forward sale	(115,000,000) JPY	8/8/2011	7,000
Forward sale	(2,868,600) EUR	9/2/2011	(35,950)
Forward sale	(170,000,000) JPY	9/16/2011	1,390
Forward sale	(65,777,375) EUR	9/22/2011	1,011,642
Forward sale	(411,245) EUR	7/1/2011	(3,372)
Forward sale	(230,806) GBP	7/1/2011	81
Forward sale	(139,481,959) JPY	7/1/2011	(7,382)
Forward sale	(255,127) CHF	7/5/2011	(961)
Forward sale	(363,300) GBP	8/12/2011	6,280
Forward purchase	1,038,937 CAD	7/5/2011	10,274
Forward purchase	18,765 GBP	7/1/2011	(10)
Forward purchase	15,031 GBP	8/12/2011	(388)
Forward purchase	200,900,000 CNY	7/26/2011	3,076,422
Forward purchase	159,225,000 CNY	8/25/2011	2,641,571
Forward purchase	129,400,000 CNY	7/24/2014	304,409
Forward purchase	128,050,000 CNY	7/28/2014	92,578
Forward purchase	150,250,000 CNY	3/30/2015	(1,423,976)
Forward purchase	117,237,600 CNY	9/10/2015	395,983
Forward purchase	1,900,000,000 JPY	7/14/2011	1,023,133
Forward sale	557,573 EUR	8/11/2011	(12,985)
Forward purchase	22,000,000 JPY	8/12/2011	1,748

**Credit Risk.** SDIC is exposed to credit risk on derivative instruments that are in asset positions. The SDIC attempts to minimize credit risk by entering into derivatives contracts with major financial institutions. At June 30, 2011, the net fair value of foreign currency forward contracts was \$7,103,748. This represents the maximum loss that would be recognized at the reporting date if all counterparties failed to perform as contracted. The credit ratings of the counterparties are as follows:

Moody's Credit Rating	Number of Counterparties	Fair Value
A1	1	\$ 2,015,013
Aa2	1	5,088,735

**Interest Rate Risk.** The SDIC is exposed to interest rate risk on its 10-year U.S. Treasury Note futures contract. As interest rates increase, the value of the futures contract decreases.

**Foreign Currency Risk.** SDIC is exposed to foreign currency risk on its foreign currency forward contracts because they are denominated in foreign currencies. The net fair value of the foreign currency forward contracts in U.S. dollars is \$7,090,763.

The SDIC enters into foreign exchange forward contracts to manage foreign currency exposure, as permitted by portfolio policies. The fair values of the contracts are presented in the statement of net assets as investments – equities.

## **B. Component Units**

### **Deposits**

**Custodial Credit Risk.** Custodial credit risk is the risk that, in the event of the failure of a depository institution, the component unit's deposits may not be returned to it. The component units do not have deposit policies for custodial credit risk. As of June 30, 2011 the component units had deposits that were not collateralized or covered by depository insurance in the amount of \$2,170,990.

### **Investments**

**Custodial Credit Risk.** Custodial credit risk is the risk that in the event of the failure of the counterparty, the component unit will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The component units do not have investment policies for custodial credit risk. At June 30, 2011, investments in the amount of \$4,412,864 were uninsured and unregistered, with the securities held by the counterparty, or by its trust department or agent, but not in the component unit's name.

**Interest Rate Risk.** Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The component units have limits on the maturities of investments for their restricted accounts. Investments of the Capital Reserve accounts must provide for the purposes thereof as estimated by the Authority. The investments must not mature later than the final maturity of the related Series of the Bonds. The average duration of individual securities will not exceed twenty years. Investments of the Mortgage Reserve accounts must provide for the purposes thereof as estimated by the Authority.

The duration of fifty percent of individual securities will not exceed two years from the date of purchase or deposit. The Housing Development Authority assumes that its callable investments will not be called. The Housing Development Authority invests in mortgage pass-through securities issued by GNMA, FNMA and FHLMC. Because prepayments of mortgages underlying these securities affect the principal and interest payments received by these securities, these securities are considered highly sensitive to interest rate risk.

The Economic Development Finance Authority limits the maturities of investments for its restricted accounts (all accounts other than the General Account) to terms of two years or less from the date of the investment.

As of June 30, 2011, component units had investments maturing as follows (expressed in thousands):

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1 to 5	6 to 10	Greater than 10
U.S. Treasuries bills	\$ 100,913	\$ 100,913	\$	\$	\$
U.S. Treasuries notes	91,877		66,836	5,115	19,926
U.S. Treasury strips	62		62		
U.S. agencies	310,586	33,855	141,376	31,008	104,347
Mutual funds	151,729	151,629		100	
State Obligations	6,947	280	5,200	1,457	
Investment agreements	11,146	3,501	2,636		5,009
Total	\$ 673,260	\$ 290,178	\$ 216,110	\$ 37,690	\$ 129,282

**Credit Risk.** Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. It is the investment policy of the Housing Development Authority to invest in securities limited to direct general obligations of the U.S. Government, U.S. Government agencies, direct and general obligations of any state within the United States, mutual funds invested in securities mentioned above and investment agreements secured by securities mentioned above. The State obligations were rated Aa and Aaa by Moody's Investors Service. U.S. Government agencies are rated Aaa by Moody's Investors Service. Investment agreements are unrated, however, the underlying collateral pledged against them are invested in direct obligations of the U.S. Government and U.S. Government agencies. Mutual fund investments are rated Aaa by Moody's Investors Service. Investments issued by or explicitly guaranteed by the U.S. Government are not considered to have a credit risk.

The investment management policy of the Economic Development Finance Authority limits investments in corporate bonds to those rated in either of the two highest rating categories by either Moody's Investors Service or Standard & Poor's Corporation.

As of June 30, 2011, the Housing Development Authority and the Economic Development Finance Authority investments had the following ratings (expressed in thousands):

Moody's Rating	Fair Value
Aaa	\$ 453,388
Aa	7,826
Baa	401
Unrated	8,507
Total Fair Value	\$ 470,122

**Concentration of Credit Risk.** Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The component units place no limit on the amounts that they may invest in any one issuer. As of June 30, 2011, the following issuers held 5 % or more of the Housing Development Authority's investments: Federal Home Loan Bank (14.70%), Federal National Mortgage Association (18.20%), and Federal Home Loan Mortgage Corporation (9.02%).

#### ***Derivative Financial Instruments in Component Units***

**South Dakota Housing Development Authority.** The Authority has entered into interest rate swap agreements in connection with issuing variable rate mortgage revenue bonds. The intentions of the swaps are to create synthetic fixed rate debt at a lower interest rate than achievable from long-term fixed rate bonds and to achieve the Authority's goal of lending to low and moderate-income first-time home buyers at below market fixed interest rates.

**Swap Terms.** The terms, including the fair values and counterparty credit ratings of the outstanding swaps as of June 30, 2011, are contained in the table below. The initial notional amounts of the swaps match the principal amounts of the associated debt. The Authority has purchased the right to terminate the outstanding swap balances at par value on dates that are generally 10 years after the date of issuance of the related bonds (expressed in thousands).

Bond Series	Current Notional Amount	Effective Date	Fixed Rate	Variable Rate Received	Termination Date	Counterparty Credit Rating*	Fair Value
<b>Merrill Lynch Capital Services</b>							
2003 C-1	\$ 26,500	6/18/04	3.40%	57% of LIBOR plus 0.42%	5/01/2013	A2	\$ (1,403)
2005 D	6,925	4/13/05	3.29%	57.3 % of LIBOR plus 0.40%	5/01/2015	A2	(561)
2007 I	34,000	10/16/07	4.14%	63.8% of LIBOR plus 0.30%	5/01/2038	A2	(3,404)
<b>JPMorgan Chase Bank, N.A.</b>							
2004 G	33,000	10/20/04	3.90%	63.4% of LIBOR plus 0.29%	5/01/2034	Aa1	(1,910)
2005 C	41,000	4/13/05	3.93%	63.3% of LIBOR plus 0.30%	5/01/2035	Aa1	(2,659)
2008 F	34,000	9/4/08	3.85%	63.7% of LIBOR plus 0.31%	05/03/2039	Aa1	(2,624)
<b>The Bank of New York, Mellon, N.A.**</b>							
2003 F	13,000	6/21/05	3.76%	63.8% of LIBOR plus 0.29%	5/01/2034	Aaa	(494)
2003 I	28,000	6/21/05	3.76%	63.8% of LIBOR plus 0.29%	5/01/2034	Aaa	(1,051)
2004 C	34,000	6/21/05	3.75%	63.8% of LIBOR plus 0.29%	5/01/2034	Aaa	(1,416)
<b>Bank of America, N.A.</b>							
2009 C	22,000	11/18/09	3.14%	64.0% of LIBOR plus 0.22%	5/01/2039	Aa3	(308)
<b>Merrill Lynch Derivative Products, AG.</b>							
2005 G	25,000	7/19/05	3.77%	63.8% of LIBOR plus 0.29%	5/01/2035	Aa3	(1,315)
2006 C	45,000	6/14/06	4.42%	64% of LIBOR plus 0.29%	5/01/2037	Aa3	(4,755)
2008 C	46,090	3/26/08	3.42%	63.7% of LIBOR plus 0.30%	5/01/2039	Aa3	(1,787)
MPB 2008 A	7,240	8/2/08	3.55%	63.8% of LIBOR plus 0.20%	05/01/2048	Aa3	(437)

\* Moody's Investors Service

\*\* Swaps were novated from UBS on July 22, 2010

The fair values presented above were estimated by the Authority's counterparty to the swaps. The valuation was determined by calculating the difference between the present values of each fixed cash flow to be paid and each floating cash flow to be received by the Authority based upon the current market yield curve. The present value factors for each cash flow are based on the implied zero coupon yield curve determined by current market rates. Additionally, the values of the call options are determined by calculating the present value of each predicted option outcome, whose interest rate prediction variance is determined by current market implied volatility. Together these calculations determine the current fair value of the Authority's swap contracts. The fair values in the table above represent the termination payments that would have been due had the swaps been terminated as of June 30, 2011. A positive fair value represents money due the Authority by the counterparty upon termination of the swap, while a negative fair value represents money payable by the Authority.

### Swap Risks

**Credit Risk.** The terms of the swaps expose the Authority to potential credit risk with the counterparty upon the occurrence of a termination event. The fair value of a swap represents the Authority's current credit exposure to the counterparty with which the swaps were executed. The Authority has credit risk exposure to its counterparties when the swap positions have a positive value.

**Basis Risk.** The Authority incurs the potential risk that the variable interest payments on its bonds will not equal the variable interest receipts from its swaps. This basis risk exists because the Authority pays the actual variable rate on its bonds, but under the terms of its swaps receives a variable rate based upon the one-month, taxable LIBOR rate. Basis risk will vary over time due to inter-market conditions. For the year ended June 30, 2011, the weighted average interest rate on

the Authority's variable rate debt associated with swaps was 1.97% per annum, while the weighted average interest rate on the swaps was 1.931% per annum. In order to reduce the cumulative effects of basis risk, the variable rate determination structure for interest receipts within the swap is based upon a regression analysis of the long-term relationship between variable tax exempt rates and the one-month, taxable LIBOR rate.

**Termination Risk.** The Authority's swap contracts are based upon the International Swap Dealers Association Master Agreement, which includes standard termination events. The swap contracts may be terminated by either party if the other party fails to perform under the terms of the contract. Upon termination, a payment is due to one party irrespective of causality based upon the fair value of the swap. The potential termination risks to the Authority are the liability for a termination payment to the counterparty or the inability to replace the swap under favorable financial terms. To reduce the Authority's termination risk, the swap contracts limit the counterparty's ability to terminate due to the following Authority actions or events: payment default, other defaults that remain uncured for 30 days after notice, bankruptcy and insolvency.

**Amortization Risk.** The Authority may incur amortization risk because prepayments from the mortgage loan portfolio may cause the outstanding amount of variable rate bonds to decline faster than the amortization of the swap. To ameliorate amortization risk, call options were structured within the swaps to enable the Authority to manage the outstanding balances of variable rate bonds and notional swap amounts. Additionally, the Authority may terminate the swaps at market value at any time.

**Tax Risk.** The structure of the variable interest rate payments the Authority receives from its swap contracts are based upon the historical long-term relationship between taxable and tax-exempt short-term interest rates. Tax risk represents a risk that may arise due to a change in the tax code that may fundamentally alter this relationship. The Authority has chosen to assume this risk because it was not economically feasible to transfer to the swap counterparty.

**Concentration Risk.** The total outstanding notional amount of swaps with a single counterparty will not exceed \$150,000,000.

**Swap Payments and Associated Debt.** As rates vary, variable-rate bond interest payments and net swap payments will vary. Debt service requirements of the variable-rate debt and net swap payments, assuming current interest rates remain the same for their term, were as follows using rates as of June 30, 2011 (expressed in thousands):

Year End June 30	Variable-Rate Bond		Interest Rate		Total
	Principal	Interest	Swap – Net		
2012	\$ 80	\$ 365	\$ 13,493	\$	13,939
2013	90	365	13,364		13,819
2014	90	365	12,726		13,181
2015	95	365	12,723		13,183
2016	100	365	12,720		13,185
2017-2021	555	1,820	62,746		65,121
2022-2026	695	1,814	62,486		64,995
2027-2031	57,025	1,727	59,180		117,932
2032-2036	285,070	1,186	40,363		326,618
2037-2041	49,615	97	3,257		52,968
2042-2046	1,600	16	279		1,896
2047-2051	740	2	35		777
Total	\$ 395,755	\$ 8,487	\$ 293,372	\$	697,614

**Rollover Risk.** Rollover risk is the risk that a swap associated with a bond issue does not extend to the maturity of that debt. When the swap terminates, the associated debt will no longer have the benefit of the swap. The Authority is exposed to rollover risk on the following debt:

Bond Series	Debt Maturity Date	Swap Termination Date
2003 C – 1	May 1, 2032	May 1, 2013
2005 D	May 1, 2031	May 1, 2015

## 4. DISAGGREGATION OF RECEIVABLES AND PAYABLES

### A. Receivables - Net

The line "Receivables, Net" reported on the government-wide Statement of Net Assets consisted of the following (expressed in thousands):

	Governmental Activities						Total
	General Fund	Trans- portation Fund	Social Services Federal Fund	Dakota Cement Trust Fund	Education Enhancement Trust Fund	Non-major Governmental Funds	
Taxes Receivable	\$ 108,801	\$ 9,621	\$	\$	\$	\$ 4,222	\$ 122,644
Allowance	(9,456)	(21)				(27)	(9,504)
Accounts Receivable	6,867	984	8,427			19,430	35,902
Allowance	(1,140)	(326)				(3,640)	(5,106)

## **B. Accounts Payable and Other Current Liabilities**

The line "Accounts Payable and Other Current Liabilities" reported on the government-wide Statement of Net Assets consisted of the following (expressed in thousands):

	Governmental Activities						
	General Fund	Transportation Fund	Social Services Federal Fund	Dakota Cement Trust	Non-major Governmental Funds	Internal Service Funds	Total
Payroll and Withholdings	\$ 10,320	\$ 4,101	\$ 1,553	\$ 7	\$ 9,729	\$ 1,884	\$ 27,594
Accounts Payable	8,790	37,113	5,027		21,609	1,780	74,319
Bank Tax Refund	26,651						26,651
Medicaid Claims	17,817		27,098		7,009		51,924
Due to Other Governments	2,764	7,627	82		33,004	61	43,538
Shared Revenue Distribution	21,088				25,156		46,244
Claims Payable						12,530	12,530
Due to Fiduciary Funds	42				46		88
Total	\$ 87,472	\$ 48,841	\$33,760	\$ 7	\$ 96,553	\$16,255	\$282,888

	Business-type Activities				
	Lottery Fund	Clean Water State Revolving Fund	Drinking Water State Revolving Fund	Non-major Enterprise Funds	Total
Payroll and Withholdings	\$ 89	\$ 15	\$ 12	\$ 479	\$ 595
Accounts Payable	1,599	223	253	1,546	3,621
Due to Fiduciary Funds				13	13
Escrow Payable	70				70
Claims Payable				1,274	1,274
Other Liabilities	473			19	492
Total	\$ 2,231	\$ 238	\$ 265	\$ 3,331	\$ 6,065

## 5. INTERFUND TRANSACTIONS

The composition of interfund balances at June 30, 2011 is as follows (expressed in thousands):

### A. Interfund Receivables and Payables

Due To	Due From								
	General Fund	Transportation Fund	Social Services Federal Fund	Education Enhancement Fund	Non-major Governmental Fund	Lottery Fund	Non-major Enterprise Funds	Internal Service Fund	Fiduciary Fund
General Fund	\$	\$	\$ 3,524	\$ 14,469	\$ 35,692	\$4,326	\$ 5	\$ 14	\$ 26
Transportation Fund			3		437		4	736	
Social Services Federal Fund					6				
Non-major Governmental Funds	873	344	249		2,442	1,776	853	119	112
Non-major Enterprise Fund	53	2	17		119			95	23
Internal Service Funds	1,969	1,083	641		2,521	69	156	611	43
Fiduciary Funds	42				46		13		
<b>Total</b>	<b>\$ 2,937</b>	<b>\$ 1,429</b>	<b>\$ 4,434</b>	<b>\$ 14,469</b>	<b>\$ 41,263</b>	<b>\$6,171</b>	<b>\$ 1,031</b>	<b>\$1,575</b>	<b>\$ 204</b>

Interfund receivables and payables are recorded for: 1) interfund goods or services provided or other reimbursable transactions occurring between funds; 2) year-end entries eliminating deficit cash balances in funds as described further in Note 3; and, 3) other payables existing between funds.

Advances between funds also existed at June 30, 2011 which are not shown in the above table. These are amounts owed between funds that are not due within one year. In fiscal year 2011, advances include \$1,449,000 from the Energy Conservation Fund, reported as a non-major governmental fund, to the General Fund and the Veteran's Home Fund reported as a non-major governmental funds for energy conservation projects.

### B. Interfund Transfers

Transferred From	Transferred To							
	General Fund	Transportation Fund	Non-major Governmental Funds	Clean Water State Revolving Fund	Non-major Enterprise Funds	Internal Service Funds	Fiduciary Funds	Total
General Fund	\$	\$ 82	\$ 12,634	\$	\$ 1,192	\$ 1,364	\$	\$ 15,272
Transportation Fund	2,388		1,173					3,561
Dakota Cement Trust Fund	12,000							12,000
Education Enhancement Trust Fund	14,469							14,469
Non-major Governmental Funds	73,435	4,651	6,833		706	350	4,097	90,072
Lottery Fund	101,050	176	6,752					107,978
Clean Water State Revolving Fund			30					30
Drinking Water State Revolving Fund			27	10,000				10,027
Non-major Enterprise Funds			1,613					1,613
Internal Service Funds	310		345			3		658
<b>Total</b>	<b>\$ 203,652</b>	<b>\$ 4,909</b>	<b>\$ 29,407</b>	<b>\$ 10,000</b>	<b>\$ 1,898</b>	<b>\$ 1,717</b>	<b>\$ 4,097</b>	<b>\$255,680</b>

Transfers are used to: 1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; 2) move receipts restricted for debt service from the funds collecting the receipts to the debt service funds as debt service payments become due; and, 3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

In fiscal year 2011, \$185,757,000 of State appropriations was used to support state-run universities, which are reported under Higher Education, a component unit. The amounts are reported as expenditures in the Governmental Fund Balance Sheet and as expenses in the governmental activities column of the Statement of Activities. They are reported as revenues in the component unit's column of the Statement of Activities.

## 6. CAPITAL ASSETS

### A. Primary Government

Capital Assets consisted of the following for fiscal year 2011 (expressed in thousands):

Governmental Activities	Beginning Balance (Restated)	Additions	Deletions	Ending Balance
<b>Capital Assets not Being Depreciated:</b>				
Land	\$ 102,479	\$ 9,494	\$ 308	\$ 111,665
Land Improvements	6,279			6,279
Land & Improvements - Roads	596,572	2,228		598,800

Buildings and Structures	24,664
Science and Technology	
Buildings and Structures	703
Infrastructure	23
<b>Total Discretely Presented Component Units</b>	<b>\$ 33,306</b>

## ***7. RETIREMENT PLANS***

**South Dakota Retirement System, Plan Description:** The South Dakota Retirement System (SDRS) is a cost-sharing, multiple-employer, hybrid defined benefit plan for employees of the State and its political subdivisions. The SDRS provides retirement, disability and survivor benefits. Authority for establishing, administering, and amending plan provisions is found in SDCL 3-12. The SDRS issues a publicly available financial report that includes financial statements, footnote disclosures, and required supplementary information. The SDRS is considered part of the State of South Dakota financial reporting entity and is included in the State's financial report as a pension trust fund. Copies of the separately issued financial report may be obtained by writing to the SDRS, P.O. Box 1098, Pierre, SD 57501-1098, or by calling (605) 773-3731.

As of June 30, 2011, the number of participating governmental employers was:

School Districts	168
State of South Dakota	1
Board of Regents	1
Municipalities	149
Counties	64
Boards and Commissions	<u>87</u>
<b>Total Employers</b>	<b><u>471</u></b>

The SDRS financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America applicable to governmental accounting for a pension trust fund. Revenue is recorded when earned and expenses recorded when incurred. Employee and employer contributions are recognized when due pursuant to formal commitment as well as statutory requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Investments are carried at fair value to properly reflect the asset values of the fund at June 30, 2011. Fair values were determined based on closing market prices at June 30, 2011 for those securities traded on national and international stock exchanges and at the average of bid-and-asked quotations for those securities traded in the over-the-counter market. For alternative investments where no readily ascertainable market value exists, management, in consultation with their investment advisors, values these investments in good faith based upon the investment's current financial statements or

other information provided by the underlying investment advisor. The value of foreign securities in foreign currency amounts is expressed in U.S. dollars at the closing daily rate of exchange. Purchases and sales are recorded as of the trade date.

The equity securities include common stocks, preferred stocks, convertible debentures, arbitrage securities, and equity international funds. The fixed income securities include U.S. government and government-backed bonds and corporate bonds.

Foreign exchange rate gains and losses are included with the net appreciation in fair value in investments. Futures contracts are marked to market based on quoted futures prices with changes in fair value reflected in the current period.

Interest is accrued in the period it is earned and dividend income is recorded on the ex-dividend date.

**Contributions:** Covered employees are required by state law to contribute a percentage of their salary to SDRS as follows:

- Class A members - 6%
- Class B Judicial members - 9%
- Class B Public Safety members - 8%

All participating employers are required to contribute an amount equal to the member's contributions. Members may make an additional contribution of 1.5% of compensation for optional spouse coverage.

Contributions for all participating employers during fiscal year 2011 totaling \$198,804,676 (\$100,179,938 employee and \$98,624,738 employer) were made in accordance with statutory rates. The primary government and its discretely presented component units' share was \$72,076,323 (\$36,148,243 employee and \$35,928,080 employer). These contributions represent 100% of current year covered payroll for all participating units. The employee contributions exceed the employer contributions because of optional spouse coverage contributions and employee service purchase payments. The employer contributions for all participating employers for fiscal years 2010, 2009, and 2008 were \$96,914,192; \$94,244,915 and \$89,766,090 respectively.

SDRS is funded by fixed member and employer contributions at a rate established by state law. On an annual basis, an independent actuarial valuation of SDRS is made to determine the adequacy of the fixed contractually-required contributions to pay the normal cost, expenses and amortize the frozen unfunded actuarial accrued liability. The June 30, 2011 actuarial valuation of the plan determined that the contractually-required employer contributions equal the requirements for the annual required contribution of the employers under GASB Statement No. 25.

SDRS allows participating entities to pay their deferred contributions for funding of accrued benefits over periods of up to 20 years and members to pay for the purchase of certain prior service over periods of up to 10 years. Interest is charged at rates of 5% to 8%. As of June 30, 2011, deferred contribution payments will be received as follows (expressed in thousands):

Year Ending June 30	Employees
2012	\$ 352
2013	269
2014	210
2015	21
2016	19
Later	21
	892
Less interest	(108)
Total	\$ 784

**South Dakota Cement Commission Retirement Plans:** During the 2010 South Dakota Legislative Session, South Dakota Codified Law Chapter 5-17 was amended to provide for the abolishment of the South Dakota Cement Plant Commission and liquidation of the Commission's property no later than June 30, 2011. In addition, the law transferred the responsibility for the administration of the CPRF retirement benefit payment to the South Dakota Retirement System. On July 1, 2010, the South Dakota Retirement System (SDRS) began administering the South Dakota Cement Plant Retirement Fund (Fund), in conjunction to the dissolution of the South Dakota Cement Commission.

The Fund is a single-employer public employee retirement system (PERS). The Fund consists of six defined benefit pension plans covering all former employees of the State Cement Plant. The Plans are actuarially funded using the entry age normal, level percent of pay, funding method. The Plan's funding policy provides for the unfunded actuarial accrued liability to be amortized as a level dollar over an open 20-year period. The most recent actuarial valuation was prepared as of July 1, 2010.

On March 16, 2001, the State of South Dakota sold the State Cement Plant to a private corporation. As of that date the Plans were frozen as to new participants, final average earnings, credited service and primary social security benefits. The normal retirement age is 65, and early retirement is at age 55 with required credited service. The plans provide disability benefits to those former employees totally and permanently disabled on or before March 16, 2001. All participants in the plan on March 16, 2001 were 100% vested. A survivor benefit will be paid to a surviving spouse provided: a) the spouse has dependent children; or, b) the surviving spouse has attained the age of 65; or, c) the employee had purchased the surviving spouse coverage option. Plan contributions are established by Administrative Rules of South Dakota.

Copies of a separately issued financial report on the plans may be obtained by writing to the South Dakota Department of Legislative Audit, 427 South Chapelle, c/o 500 East Capitol, or by calling (605) 773-3595.

The Funds' financial statements are prepared on the accrual basis of accounting. Benefits are recorded when payable by administrative rule.

Investments are carried at fair value which is based on the quoted market price of each investment traded on stock exchanges in accordance with GASB Statement No. 31. For alternative investments where no readily ascertainable market value exists, management, in consultation with their investment advisors, values these investments in good faith based upon the investment's current financial statements or other information provided by the underlying investment advisor. Interest and dividends are accrued in the period they are earned. The unrealized appreciation or depreciation in the current value of the investments held at June 30, 2011 and the realized gain or loss on sales of investments during the period then ended are determined using the average cost of the investments. At June 30, 2011 the fair value of net assets held in trust for pension benefits was \$49,534,180.

**Department of Labor Employment Security Retirement Plan:** Employees of the Department of Labor hired prior to July 1, 1980 had the option to become a member of the SDRS, or maintain membership in the Employment Security Retirement Plan. The Employment Security Retirement Plan is a defined benefit single employer plan administered through a private insurance carrier.

Financial statements are not available from the insurance company. The latest actuarial information available is as of July 1, 2011. The following actuarial information covers all employees of the active life plan, plus any cost-of-living increases granted to retired life plan participants after January 1, 1987.

For the fiscal year ended June 30, 2011 (most recent actuarial valuation date), the payroll and contributions for employees covered by the plan was \$1,254,073 and \$12,774, respectively. On June 30, 2011 participants in the plan consisted of the following:

Active Participants	32
Vested Terminated Participants	4
Retired Participants and Beneficiaries	217

Investments are carried at fair value to properly reflect asset values at June 30, 2011. Contributions are made by active life plan participants at 5% of their salaries. As of July 1, 2011, the plan is overfunded by \$4.4 million, based on the actuarial assumptions used. The primary reason for this change was an asset gain of \$8.2 million due to returns more favorable than expected (actual 24.2% vs. 7.5% expected). This gain was offset by a demographic loss of approximately \$0.2 million due to less retiree deaths than expected and higher COLA than expected (actual 3.6% vs. 3.5% expected) offset by lower salaries than expected.

The following table shows the recommended contribution for plan year ending June 30, 2011:

I. Recommended employer contribution, before test of unfunded liability	
(a) Total normal cost	\$ 9,767
(b) Expected employee contributions	(7,801)
(c) Employer normal cost (a)-(b)	1,966
(d) 25-year amortization payment toward unfunded actuarial liability	282,068
(e) Interest to June 30, 2010 on (c)+(d)	21,303
(f) Recommended employer contribution, before test of unfunded liability: (c)+(d)+(e), but not less than \$0	\$ 305,337
II. Test of unfunded liability	
(g) Unfunded actuarial liability	
(i) Actuarial liability as of July 1, 2009	\$ 54,929,565
(ii) Actuarial value of assets as of July 1, 2009	(51,549,554)
(iii) Unfunded actuarial liability: (i)-(ii)	3,380,011
(h) Interest to June 30, 2010 on (c)+(g)	253,648
(i) Expected unfunded liability as of June 30, 2010: (c)+(g)+(h), but not less than \$0	3,635,625
III. Recommended employer contribution: lesser of (f) and (i)	\$ 305,337

The GASB No. 27 annual pension expense is defined as the Annual Required Contribution (ARC) plus one year's interest on the Net Pension Obligation (NPO) offset by an adjustment to the ARC. The ARC may be defined as the recommended annual employer contribution as developed above. The NPO is defined as the cumulative difference, including interest, for the years prior to the transition date (July 1, 1997) between (a) the employer's required contributions in accordance with the plan's actuarially determined funding requirements and (b) the contributions made by the employer in relation to the required contributions. The following table displays the development of the NPO and the annual pension cost assuming that there will be no employer contributions.

Fiscal Year Ended 30-Jun	(a) Annual Required Contribution (ARC)	(b) Employer Contribution	(c) Interest on NPO	(d) ARC Adjustment LY (h)/(e)	(e) Amortization Factor	(f) Annual Pension Cost (a)+(c)-(d)	(g) Change in NPO (f)-(b)	(h) NPO Balance LY+(g)
2010	\$503,139	\$0	\$0	\$0	11.147	\$503,139	\$503,139	\$503,139
2011	\$305,337	\$0	\$37,735	\$45,137	11.147	\$297,935	\$297,935	\$801,074

The schedule of funding progress (expressed in thousands) is as follows:

Fiscal Year Ended June 30	Actuarially Net Assets Available For Benefits	Entry Age Normal Assets in Accrued Liability (AAL)	Percent Funded (1)/(2)	Annual Excess of AAL (1)-(2)	Annual Covered Payroll	Assets in Excess Of AAL as a Percent of Covered Payroll (4)/(5)
2002	57,914	46,442	124.7	11,472	2,957	388.0
2003	56,633	47,386	119.5	9,247	2,753	335.3
2004	62,477	48,597	128.6	13,880	2,717	510.8
2005	66,065	49,885	132.4	16,180	2,693	599.8
2006	69,259	52,534	131.8	16,725	2,254	742.1
2007	70,357	53,395	143.0	22,962	2,010	1,142.2
2008	68,209	54,703	124.7	13,506	1,696	796.6
2009	48,578	54,144	89.7	(5,566)	1,631	(341.2)
2010	51,550	54,930	93.8	(3,380)	1,407	(240.2)
2011	59,870	55,470	107.9	4,400	1,254	350.9

## **8. DEFERRED COMPENSATION PLAN**

The State of South Dakota maintains a deferred compensation plan for the benefit of its employees created in accordance with Internal Revenue Code Section 457. The plan is available to all employees of the State and its political subdivisions. The plan permits participants to defer a portion of their salary until future years, thereby deferring taxation on the portion deferred. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights held by the deferred compensation plan, at all times until made available to a participant or the participant's beneficiary, shall be held in trust for the exclusive benefit of the participants. The State has no liability for losses under the plan.

The assets of the deferred compensation plan are not included in the accompanying financial statements because the assets are remitted to a third-party who administers and markets the plan for the participants.

## **9. SPECIAL PAY PLAN**

The Special Pay Plan (SPP) was established in July 2004 as a qualified plan pursuant to Internal Revenue Code Section 401(a) under the administrative responsibility of the SDRS Board of Trustees. South Dakota state government and the South Dakota Board of Regents are participating units and every state political subdivision may become a participating unit in the plan. The SPP mandates that qualifying employees (over age 55 and \$600 or more in "special" pay) of participating units defer 100 percent of their special lump-sum termination pay to the plan. The participating unit transfers the deferred pay to the fund. This deferred pay is available to a participant immediately after termination, upon later retirement, or to beneficiaries or an estate upon the participant's death.

Of the \$23,576,722 net assets available for plan benefits at June 30, 2011, \$13,545,505 was held in trust for employees of the State, while the remaining \$10,031,217 represents the assets held in trust for employees of other jurisdictions. The assets of the special pay plan are not included in the accompanying financial statements because the assets are remitted to a third-party who administers and markets the plan for the participants.

## **10. OTHER POST EMPLOYMENT BENEFITS**

The State of South Dakota implemented GASB Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions" (GASB 45) during the year ended June 30, 2008.

**Plan Description:** In accordance with Administrative Rules 55:03:04 other postemployment benefits (OPEB) are available to health plan retirees that are receiving a retirement benefit from the South Dakota Retirement System. In order to receive an SDRS benefit, the retiree must be at least age 55 with three years of service. Certain Public Safety employees qualify for SDRS at age 45 with three years of service.

Pre-Medicare retirees are eligible to be covered under the same medical plans that are provided to active employees as authorized by SDCL 3-12A-2 until the age of 65. However, retirees must contribute towards the cost of this coverage based on the contribution scale determined by the South Dakota Bureau of Personnel. Dependents at the time of retirement can continue to be covered during retirement for as long as they are eligible as dependents under the plan and contribute towards the cost of the coverage. Although the retirees generally must pay 100% of the premium rate, GASB 45 requires that employers recognize the Implicit Rate Subsidy that exists in postretirement medical plans provided by governmental employers.

The Implicit Rate Subsidy refers to the concept that retirees under the age of 65 (i.e. not eligible for Medicare) generate higher claims on average than active participants. When a medical plan is self-insured or fully insured through a third-party administrator, a premium is usually determined by analyzing the claims of the entire population in that plan and adjusting for administrative costs. The resulting premium is called a blended premium because it blends the claims of active and retired participants. Since individuals generally have more and higher claims as they get older, the blended premium paid for retirees is lower than their expected claims. Another way of considering this is that if the retirees were removed from the

plan, the premium for the active group would be lower; therefore, the retirees' premiums are being subsidized by the active group. Since the employer generally pays a large portion or all of the premiums for the active group, this subsidy creates a liability for the employer. The difference between the expected claims for the retiree group and the blended premium is called the Implicit Rate Subsidy.

The State operates an agent multiple defined employer retiree benefit plan which provides medical insurance benefits for retirees. There were 704 retirees as of July 1, 2010. The State has a self-insured health plan with the choice of three different deductibles for the participants to choose from.

**Funding Policy:** The contribution requirements of the plan participants are established by the Bureau of Personnel. The State currently finances the retiree benefit plan on a pay-as-you-go basis.

**Annual OPEB Cost and Net OPEB Obligation:** The state's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions." The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a thirty year amortization period using a 3.0% discount rate. For year ending June 30, 2011, the state's ARC is \$8,105,443.

The following table shows the components of the state's annual OPEB cost for the year, the amount contributed to the plan, and the changes to the state's net OPEB obligation. Because Higher Education is a discretely presented component unit that contributes 36% of the revenue for active employees 36% of the Net OPEB Obligation was reported by Higher Education.

Annual Required Contribution (ARC)	\$ 8,105,443
Interest on Net OPEB Obligation (NOO)	456,554
Amortization Adjustment to ARC	(753,762)
Annual OPEB Cost (Expense)	7,808,235
Less: Contributions	(2,893,849)
Increase in Net OPEB Obligation (NOO)	4,914,386
NOO, Beginning Balance	15,218,459
<b>NOO, Ending</b>	<b>\$ 20,132,845</b>

The state's annual OPEB cost, the percentage of annual OPEB cost contributed to this plan, and the net OPEB obligation for FY 2008, FY 2009, FY 2010 and FY 2011 are as follows:

<u>Fiscal Year</u> <u>Ended June 30</u>	<u>Annual</u> <u>OPEB Cost</u>	<u>Percentage of Annual</u> <u>OPEB Cost Contributed</u>	<u>Net OPEB</u> <u>Obligation</u>
2008	\$ 9,429,305	37.2%	\$ 5,924,549
2009	7,560,788	39.7%	10,485,515
2010	8,184,906	42.2%	15,218,459
2011	7,808,235	37.1%	20,132,845

**Funded Status and Funding Progress:** As of July 1, 2010, the most recent actuarial valuation date, the actuarial accrued liability (AAL) for benefits and the unfunded actuarial accrued liability (UAAL) was \$74.4 million. The actuarial value of assets is zero as no assets have been deposited into an irrevocable OPEB trust for future benefits. The covered payroll for active employees was \$634.0 million and the ratio of the UAAL to the covered payroll was 11.73%.

**Actuarial Methods and Assumptions:** Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumption about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule

of funding progress presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2010 actuarial valuation date, the Projected Unit Credit Actuarial Cost Method was used. The actuarial assumption included a 3.0% discount rate based on the estimated long-term investment yield on the general assets of the State. The annual medical trend rate is assumed to grade from 7.00 percent to 5.0 percent in 2013 and to remain at that level for all future years. This trend curve reflects current general medical trend and an assumption that trend rates will gradually lower over the next 4 years.

Mortality rates are from the 1995 Buck Mortality Table for males and females.

The UAAL is being amortized on an open, level dollar basis over 30 years.

The following is a schedule of funding progress:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (ALL)* (b)	Unfunded AAL (UAAL) (b) - (a)	Funded Ratio (a) / (b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll [(b) - (a)] / (c)
07/01/2007	\$ 0	\$76,406,237	\$ 76,406,237	0%	\$ 591,271,605	12.92%
07/01/2008	0	67,080,768	67,080,768	0%	617,186,072	10.87%
07/01/2009	0	70,548,028	70,548,028	0%	626,434,784	11.26%
07/01/2010	0	74,398,195	74,398,195	0%	634,017,694	11.73%

\* The projected unit credit actuarial cost method is used to calculate the actuarial accrued liability and the annual required contribution.

## 11. COMMITMENTS

**Construction and Other Commitments:** At June 30, 2011 the Department of Transportation had contractual construction commitments of \$268,410,542 for various highway projects and maintenance commitments (including stockpile) of \$8,872,766. Financing for these future expenditures will be primarily from approved federal grants and highway use taxes.

The Department of Environment and Natural Resources had construction and other contractual commitments of \$121,193,725 for various water development projects. Financing for these future expenditures will be from approved federal grants, legislative appropriations, and a bond issue. These commitments relate to the following funds/programs:

Clean Water State Revolving Fund	\$66,777,248
Drinking Water State Revolving Fund	\$31,160,467
Water and Environment Fund Program	\$15,966,296
Federal Funds	\$ 7,289,714

The Building Authority has contracts and other construction commitments of \$17,392,746.

The South Dakota Housing Development Authority had commitments to purchase home-ownership mortgage loans aggregating approximately \$35,240,332. Financing for these commitments will be from home-ownership mortgage bonds.

The Department of Tourism and State Development had construction and other contractual commitments of \$61,963,880. Financing for these future expenditures will be from approved federal grants, bond issuances, from a previous 1% sales tax, and an employer's investment in South Dakota's future fee. These commitments relate to the following funds/programs:

### Revolving Economic Development Initiative (REDI) Fund Grants/Loans

Value-Added Agriculture Sub Fund	\$ 377,688
REDI Fund Loans	\$ 17,201,907
SD Economic Development Authority	\$ 325,000
Economic Development Finance Authority, Agriculture Processing and Export Program (APEX)	\$ 117,000
Economic Development Finance Authority, Pooled Loans	\$ 10,000,000
Community Development Block Grant (CDBG)	\$ 7,780,570
Future Fund Program	\$ 7,829,699
Energy Program Loans	\$ 2,023,621
Energy Program Grants	\$ 16,308,395

The South Dakota Science and Technology Authority had a contractual commitment of \$1,782,500 for the Homestake Mine for the installation and maintenance of a deep level pump system and had contractual commitments of \$7,952,523 to outfit the underground Davis Campus at the Homestake Mine.

## **12. SELF-INSURANCE**

### **A. Workers' Compensation Benefits and Unemployment Insurance**

Various funds accumulate assets to cover risks that the State incurs in its normal operations. The State (rather than an insurance carrier) assumes the risk associated with claims of state employees for unemployment compensation benefits. "Premiums" charged to state funds to cover the costs of claims servicing and claims payments are based on a percentage of wages paid to state employees. Related transactions are accounted for in the State Unemployment Compensation Fund.

The State is self-insured for workers' compensation through the creation of reserves derived from a percentage of wages paid to state employees. This activity is accounted for in an internal service fund. Claims payable for workers' compensation is reported using an actuarial estimate based on historical experience that includes actual claims submitted as well as claims incurred, but not reported. Allocated claim adjustment expenses (those relating to a specific claim) are included in the determination of claims payable. Unallocated claim adjustment expenses are not included. Estimated recoveries on unsettled and/or settled claims reduce claims liability and are considered in the actuarial estimate. The claims liability is funded as claims are paid resulting in an actuarially determined unfunded liability of \$14,520,000 at June 30, 2011. The Workers' Compensation Fund liability at June 30, 2011 and the changes to the liability during fiscal years ended June 30, 2011 and 2010 listed on the following page were as follows (expressed in thousands):

	<u>FY2011</u>	<u>FY2010</u>
Unpaid claims and claim adjustment expenses at beginning of fiscal year	\$ 19,168	\$ 18,115
Incurred claims and claim adjustment expenses		
Provision for insured events of current fiscal year	3,850	3,728
Changes in provision for insured events of prior fiscal years	744	673
Total incurred claims and claim adjustment expenses	<u>4,594</u>	<u>4,401</u>
Payments		
Claims and claim adjustment expenses attributable to insured events of current fiscal year	967	865
Claims and claim adjustment expenses attributable to insured events of prior fiscal year	1,761	2,483
Total payments	<u>2,728</u>	<u>3,348</u>
Unpaid claims and claim adjustment expenses at end of fiscal year	<u>\$ 21,034</u>	<u>\$ 19,168</u>

## **B. Health and Life Insurance**

The State (rather than an insurance carrier) assumes substantially all risk associated with claims of covered public employees for health insurance and life insurance benefits (an insurance carrier, however, provides claims administration services for health insurance). The health and life insurance programs are accounted for in the Self-Insurance Fund, reported as an internal service fund. "Premiums" are charged to state funds for all covered employees. Employees may purchase varying levels of health and/or life coverage for their spouses and/or dependents. Claims payable for health insurance is reported using an actuarial estimate based on historical experience that includes actual claims submitted as well as claims incurred, but not reported. Allocated claim adjustment expenses are included in the determination of claims payable. Unallocated claim adjustment expenses are not included. Estimated recoveries on unsettled and/or settled claims reduce claims liability and are considered in the actuarial estimate. Claims expenses and liabilities for life insurance are reported using a case-by-case review of claims. Allocated claim adjustment expenses are uncommon and immaterial. Unallocated claim adjustment expenses are not included. At the end of fiscal year 2011, \$725,000 of the net assets balance in the Self-Insurance Fund was designated for future catastrophic losses relating to life insurance. The health and life insurance programs liability at June 30, 2011 and the changes to the liability during fiscal years ended June 30, 2011 and 2010 were as follows (expressed in thousands):

	Health Insurance		Life Insurance	
	FY2011	FY2010	FY2011	FY2010
Unpaid claims and claim adjustment expenses at beginning of fiscal year	\$ 11,350	\$ 10,387	\$ 20	\$ 124
Incurred claims and claim adjustment expenses	94,575	91,426	2,672	2,164
Payments:				
Claims and claim adjustment expenses attributable to insured events of current fiscal year	83,394	80,076	2,495	2,144
Claims and claim adjustment expenses attributable to insured events of prior fiscal years	11,350	10,387	20	124
Total payments	94,744	90,463	2,515	2,268
Unpaid claims and claim adjustment expenses at end of fiscal year	\$ 11,181	\$ 11,350	\$ 177	\$ 20

## **C. Public Entity Pool for Liability**

The State is insured through a Public Entity Pool for Liability Fund (PEPL), reported as an internal service fund. The PEPL Fund covers risks associated with automobile liability and general tort liability (including public officials' errors and omissions liability, medical malpractice liability, law enforcement liability, and products liability).

All funds and agencies of the State participate in the PEPL Fund. The PEPL Fund allocates the cost of providing claims servicing and claims payment by charging a "premium" to each fund and agency based on the number of automobiles titled to each agency (for automobile liability) or approved full-time employees (for general tort liability). The PEPL Fund initially limited claims to \$1,000,000 per occurrence, subject to limitations set forth in SDCL 3-22. The State claimed sovereign immunity for all other tort liabilities. A State Supreme Court opinion allows noneconomic damages against employees of the State while they are performing ministerial acts; therefore, beginning in FY1996, the PEPL Fund coverage document was amended to provide liability coverage for noneconomic damages that are the result of these acts and commercial reinsurance was purchased. Beginning in FY2001 through FY2003 the State purchased reinsurance for claims costs over \$250,000 with 100% of the remaining \$750,000. In FY2004 the State purchased reinsurance for claims costs over \$250,000 with 90% of the remaining \$750,000. In FY2005 through FY2011 the State purchased reinsurance for claims costs over \$250,000 with 75% of the remaining \$750,000.

Claims expenses and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred, but not reported, based on historical experience. Allocated claim adjustment expenses are included in the determination of claims payable. Unallocated claim adjustment expenses are not included. Estimated recoveries on unsettled and/or settled claims reduce claims liability and are considered in the actuarial estimate. At the end of fiscal year 2011, \$3,785,033 of the net assets balance in the PEPL Fund was

designated for future catastrophic losses. The PEPL Fund liability at June 30, 2011 and the changes to the liability during fiscal years ended June 30, 2011 and 2010 were as follows (expressed in thousands):

	<u>FY2011</u>	<u>FY2010</u>
Unpaid claims and claim adjustment expenses at beginning of fiscal year	\$ 3,714	\$ 5,034
Incurred claims and claim adjustment expenses		
Provision for insured events of current fiscal year	1,160	932
Changes in provision for insured events of prior fiscal years	1,261	(693)
Total incurred claims and claim adjustment expenses	<u>2,421</u>	<u>239</u>
Payments:		
Claims and claim adjustment expenses attributable to insured events of current fiscal year	269	173
Claims and claim adjustment expenses attributable to insured events of prior fiscal year	1,031	1,386
Total payments	<u>1,300</u>	<u>1,559</u>
Unpaid claims and claim adjustment expenses at end of fiscal year	<u>\$ 4,835</u>	<u>\$ 3,714</u>

#### **D. Risk Management**

The State is commercially insured for boiler insurance, aircraft, and crime bonds through outside insurance companies. Entities participating in these insurance coverages are only billed for premiums applicable to their coverage needs. The State is uninsured for property losses with the exception of all bonded buildings, all higher education facilities and buildings and certain other revenue-producing buildings that are covered through outside insurance companies.

### **13. OPERATING LEASES**

The State of South Dakota has entered into numerous agreements to lease land, buildings, and equipment. Most operating leases contain a provision that the State may renew leases on a year-to-year basis. In most cases, management expects the leases will be renewed or replaced by other leases of a similar nature.

The following schedule is a summary of future minimum rental payments by years required under operating leases with lease terms in excess of one year as of June 30, 2011 (expressed in thousands):

<u>Year Ending June 30</u>	<u>Primary Government</u>	<u>Component Units</u>
2012	\$ 7,307	\$ 1,559
2013	5,934	733
2014	4,761	215
2015	3,598	138
2016	3,151	133
2017-2021	9,083	40
2022-2026	4,951	
2027-2031	3,622	
2032-2036	1,219	
2037-2041	66	
<b>Total Minimum Payments</b>	<u>\$ 43,692</u>	<u>\$ 2,818</u>

The total rental expenses for all operating leases for the fiscal year ended June 30, 2011 was \$10,199,971 for the primary government and \$2,044,127 for component units.

## 14. LONG-TERM LIABILITIES

Long-term obligations at June 30, 2011 and changes to long-term liabilities during the fiscal year then ended are as follows (expressed in thousands):

	Beginning Balance (as restated)	Additions	Deductions	Ending Balance	Due Within One Year
<b>Governmental Activities *</b>					
Revenue Bonds	\$ 261,825	\$ 10,306	\$ (20,322)	\$ 251,809	\$ 8,484
Less Unamortized Discount	(1,957)		91	(1,866)	7
Less Deferred Loss on Refunding	(593)	(3)	198	(398)	(206)
Add Unamortized Premium	894	154	(217)	831	212
Net Revenue Bonds	260,169	10,457	(20,250)	250,376	8,497
Trust Certificates	21,895		(2,646)	19,249	2,762
Compensated Absences	49,781	32,241	(32,860)	49,162	26,001
Policy Claims Liability	3,713	2,422	(1,300)	4,835	1,300
Workers Compensation	19,344	4,602	(2,903)	21,043	2,608
Capital Leases	25,009	20,598	(5,421)	40,186	4,201
Pollution Remediation Obligation	8,979	2,690		11,669	650
Escheat Property	2,160	2,036	(2,102)	2,094	525
Net OPEB Obligation	9,740	4,997	(1,852)	12,885	
<b>Total Governmental Activities</b>	<b>\$ 400,790</b>	<b>\$ 80,043</b>	<b>\$ (69,334)</b>	<b>\$ 411,499</b>	<b>\$ 46,544</b>
<b>Business-type Activities</b>					
Revenue Bonds	\$ 125,330	\$ 92,380	\$ (48,419)	169,291	\$ 7,166
Less Unamortized Discount	(79)		45	(34)	(5)
Less Deferred Loss on Refunding	(544)	(393)	185	(752)	(200)
Add Unamortized Premium	1,802	4,148	(237)	5,713	348
Net Revenue Bonds	126,509	96,135	(48,426)	174,218	7,309
Compensated Absences	1,179	733	(708)	1,204	643
<b>Total Business-type Activities</b>	<b>\$ 127,688</b>	<b>\$ 96,868</b>	<b>\$ (49,134)</b>	<b>\$ 175,422</b>	<b>\$ 7,952</b>
<b>Component Units</b>					
Revenue Bonds	\$ 2,412,573	\$176,009	\$ (408,037)	\$2,180,545	\$ 209,360
Less Deferred Loss on Refunding	(2,860)	149	(3)	(2,714)	(68)
Less Unamortized Discount	(11)		(280)	(291)	(11)
Add Unamortized Premium	16,733	750	(3,064)	14,419	491
Net Revenue Bonds	2,426,435	176,908	(411,384)	2,191,959	209,772

\*Governmental Activities Other Long-Term Obligations - The General Fund, special revenue and internal service funds in which the leases are recorded will liquidate the capital lease obligations. The compensated absence liability will be liquidated by the applicable governmental and internal service funds that account for the salaries and wages of the related employees. The workers' compensation and policy claims liabilities will be liquidated by applicable Internal Service funds which will ultimately be billed out to the applicable funds that account for the salaries and wages of the related employees. The net OPEB obligations will be liquidated by the State's governmental and internal service funds that contribute toward the Health Insurance Internal Service Fund, based on the contribution rates. The pollution remediation obligations will be liquidated by the Petroleum Release Compensation Fund and the Department of Energy and Natural Resources - Other Fund. The escheat property obligation will be liquidated by the State's General Fund.

## Revenue Bonds and Trust Certificates

### A. Governmental Activities

#### 1. South Dakota Building Authority

The South Dakota Building Authority (SDBA) issues bonds and trust certificates to finance the cost to acquire, construct, remodel, maintain, and equip buildings and other facilities of state departments and institutions. Bonds and certificates of participation are payable from revenues generated through lease agreements between the SDBA and state departments and institutions. Lease payments for bonds and certificates of participation are paid from the General Fund and other state dedicated fees of state departments, boards, and commissions, and an annuity.

The SDBA sold trust certificates to a trustee bank and assigned the right to receive lease rental payments over to the trustee bank. The principal and interest payments on the certificates are payable solely from amounts payable by the State under lease agreements. The certificates are not an indebtedness of the State within the meaning of any constitutional or statutory debt limit, nor may the certificates be a claim against the property of the SDBA.

The indebtedness or obligations incurred or created by the SDBA may not be or become a lien, charge, or liability against the State of South Dakota. This financial presentation does not change the legal liability of the indebtedness.

Following are SDBA bonds and trust certificates outstanding at June 30, 2011 (expressed in thousands):

Bond Series:	Maturity Through	Interest Rates	Amount
1996A	2016	5.100%-5.950%	\$ 6,327

## **2. Educational Enhancement Funding Corporation**

During the 2001 Legislative session, the Legislature authorized the South Dakota Building Authority to provide for the establishment of a corporation for the purpose of selling a portion or all of the State's rights, title and interest in the proceeds of the tobacco companies master settlement agreement. On July 26, 2002 the Educational Enhancement Funding Corporation was created pursuant to South Dakota Codified Law 5-12-48 through 5-12-60. The State of South Dakota gave up its rights to any proceeds of the tobacco companies master settlement agreement while the bonds are outstanding, or over the term of the bonds, whichever is shorter.

Following are Educational Enhancement Funding Corporation bonds outstanding at June 30, 2011 (expressed in thousands):

<b>Bond Series:</b>	<b>Maturity Through</b>	<b>Interest Rates</b>	<b>Amount</b>
2002A	2025	6.72%	\$ 68,958

## **B. Business-type Activities**

### **South Dakota Conservancy District - State Revolving Funds**

The South Dakota Conservancy District issued tax-exempt revenue bonds for the Clean Water State Revolving Fund (CWSRF) and for the Drinking Water State Revolving Fund (DWSRF). The SRF's provide low interest loans or other types of financial assistance to political units for the construction of publicly-owned wastewater treatment facilities, implementation of nonpoint source management programs, development and implementation of plans under the Estuary Protection Program, and construction and maintenance of drinking water facilities. To date, the programs have been used to make loans and refinance existing debt with a maximum of twenty years for repayment. Loans for the DWSRF can be made for 30 years, if the funds are for a disadvantaged community.

The South Dakota Conservancy District bonds do not constitute a debt or liability of the State of South Dakota, or a pledge of the faith and credit of the State. The bonds are paid solely from the interest earned on the loan repayments for the CWSRF and the DWSRF of \$4.1 million and \$3.5 million, respectively.

The following is a schedule of outstanding bonds as of June 30, 2011 (expressed in thousands):

Bond Series	Maturity Through	Interest Rates	Amount
<b>Clean Water State Revolving Fund</b>			
1996A	2017	5.63%	\$ 100

## C. Component Units

### 1. South Dakota Housing Development Authority

The South Dakota Housing Development Authority (SDHDA) provides mortgage financing for construction, rehabilitation, and purchase of residential housing and assists in coordinating with federal, state, regional, and local public and private efforts with statewide housing planning. The SDHDA issues negotiable notes and bonds in amounts authorized by the Governor of South Dakota. Notes and bonds of the SDHDA do not constitute a debt or liability of the State of South Dakota, or a pledge of the faith and credit of the State. These notes and bonds are payable solely from the revenues or assets of the SDHDA.

Following is a schedule of bonds, consolidated by category, outstanding at June 30, 2011 (expressed in thousands):

	Maturity Through	Interest Rates	Amount
<b>Home-Ownership Mortgage Program</b>			
	2012-2045	.05%-6.25%

## 2. South Dakota Economic Development Finance Authority

The South Dakota Economic Development Finance Authority (EDFA) was established for the purpose of making loans to businesses for the acquisition and/or construction of land, buildings, machinery and equipment to spawn economic growth. The EDFA is authorized by South Dakota Codified Law to provide sufficient funds for achieving any of its corporate purposes. The total outstanding amount of such notes and bonds shall not exceed \$300 million at any time. No obligation issued by the EDFA shall constitute debt or liability or obligation of the State of South Dakota, or any political subdivision or a pledge of the faith and credit of the State or any political subdivision.

The EDFA issues pooled and stand alone bond issues. A pooled bond issue is secured by the EDFA's Capital Reserve Account. A stand alone issue is based solely on the credit of the borrower and the EDFA acts only as a conduit to the financing. Therefore, the debt is not included in the accompanying financial statements.

The pooled bond issues require amounts to be deposited into the Capital Reserve Account. The money on deposit in the Capital Reserve Account is irrevocably pledged to the payment of all outstanding bonds and interest only when and to the extent that other monies are not available. The amount on deposit in the Capital Reserve Account must be equal to 12.5% of the related bond principal outstanding. Amounts in excess of the reserve requirements may be transferred to any state fund to be used for other purposes. At June 30, 2011, the balance in the Capital Reserve Account was \$5,000,000 and the reserve requirement was \$2,706,250.

The following is a schedule of outstanding bonds as of June 30, 2011 (expressed in thousands):

Bond Series	Maturity Through	Interest Rates	Amount
1998A&B	2018	5.50%	\$ 535
2003A	2013	5.25%	620
2004A	2014-2029	5.000%-6.00%	4,225
2004B	2014-2024	5.000%-5.95%	2,750
2005A	2016-2026	5.25%-6.05%	4,130

<b>Total</b>	<b>\$ 21,650</b>	<b>\$ 11,569</b>	<b>\$ 33,219</b>

### 3. Higher Education

#### a. Higher Education Facilities

Revenue bonds were issued for the purpose of constructing buildings. The bonds are payable only from and secured by a pledge of net revenues of the University Housing and Auxiliary Facilities System. Net revenue is defined as gross revenue, less reasonable and necessary costs of currently maintaining, repairing, insuring, and operating the University Housing and Auxiliary Facilities System. Total net revenue pledges for fiscal year 2011 equaled \$24,029,677.

Following are revenue bonds outstanding at June 30, 2011 (expressed in thousands):

### Capital Leases

The State has entered into various agreements to lease buildings, vehicles, and equipment. FASB Statement No. 13, "Accounting For Leases", requires a lease that transfers substantially all of the benefits and risks of ownership to the lessee be accounted for as the acquisition of a fixed asset and the incurrence of an obligation by the lessee (a capital lease).

Capital lease obligations are recorded as liabilities in the government-wide and proprietary fund financial statements.

The following schedule is a summary of the future minimum lease payments under capital leases, together with the present value of the net minimum lease payments as of June 30, 2011 (expressed in thousands):

Fiscal Year Ending June 30,	Primary Government	
	Governmental Activities	Component Units
2012	\$ 6,280	\$ 2,049
2013	4,719	1,322

The historical cost and depreciation of assets acquired under capital leases and included in capital assets on the government-wide financial statements at June 30, 2011 are as follows (expressed in thousands):

	Primary Government
	Governmental Activities
Buildings	\$ 59,007
Equipment	3,223
Vehicles	8,302
Total	70,532
Less Accumulated Depreciation	21,818
Total, Net	\$ 48,714

### Conduit Debt Obligations

Conduit debt obligations are certain limited-obligation revenue bonds, certificates of participation, or similar debt instruments issued by state government for the express purpose of providing capital financing for a specific third party that is not a part of the issuer's financial reporting entity. The State has no obligation for such debt beyond the resources provided by a lease or loan with the third party on whose behalf they are issued and the debt is not included in the accompanying financial statements.

## **1. South Dakota Value Added Finance Authority**

The South Dakota Value Added Finance Authority provides low interest financing to agricultural enterprises in the State of South Dakota. The loans can be used to acquire agricultural property. The Authority is authorized to issue federal tax-exempt bonds. The bond proceeds are lent to qualifying applicants. The applicant assumes the bond payment obligation to the bond purchaser in the form of a loan with the third party bond purchaser.

As of June 30, 2011, there were 209 Beginning Farmer Bond Program series Revenue Bonds outstanding. The aggregate principal amount payable on June 30, 2011 could not be determined; however, the original issue amount totaled \$28,662,950.95.

As of June 30, 2011, there were 6 Agribusiness Bonding Program series Revenue Bonds outstanding. The aggregate principal amount payable on June 30, 2011 could not be determined; however, the original issue amount totaled \$8,497,500.

As of June 30, 2011, there were 20 Livestock Nutrient Management Bond Program series Revenue Bonds outstanding. The aggregate principal amount payable on June 30, 2011 could not be determined; however, the original issue amount totaled \$9,609,765.

As of June 30, 2011, there were 14 Agribusiness Relending Program Loans outstanding. The outstanding loan balance at June 30, 2011 was \$536,293.79.

As part of the American Recovery and Reinvestment Act, the South Dakota Value Added Finance Authority issued 3 recovery zone bonds in state fiscal year 2011. The outstanding balance at June 30, 2011 could not be determined; however, the original issue amount totaled \$24,750,000.

## **2. South Dakota Economic Development Finance Authority**

The Authority issues tax-exempt debt for the purpose of financing a company's acquisition and construction of land, buildings, machinery, and equipment to spawn economic growth. The bonds are special obligations of the Authority to which the payments paid by the company pursuant to a loan agreement have been and are hereby irrevocably pledged.

As of June 30, 2011, the aggregate amount of stand-alone bond principal outstanding was \$15,439,749. The original issue amount of stand-alone bonds totaled \$20,870,000.

### **Refunded Bonds**

The Building Authority has defeased certain refunding bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the accompanying financial statements. At June 30, 2011, \$6,825,000 of the Building Authority bonds outstanding is considered defeased.

### **Pollution Remediation Obligations**

The state of South Dakota has pollutions remediation obligation liabilities as of June 30, 2011 of \$11,669,200.

#### **1. Gilt Edge Superfund Site**

The state of South Dakota, acting through the Department of Environment and Natural Resources, has contracted with the United States Environmental Protection Agency for participation in the reclamation and remediation of the former Brohm Mine, the Gilt Edge Superfund Site in Lawrence County. The EPA's current estimate of total cleanup cost is \$134 million. The State is required by law to pay 10% of the total costs of reclamation and remediation of the site or \$13.4 million. The State has already spent approximately \$5.6 million with a remaining outstanding liability as of June 30, 2011 of \$7.8 million. The State's contribution to the costs of reclamation and remediation will come from the Regulated Response Fund, which has a cash balance of \$1.1 million, but will grow with future penalties collected for environmental violations deposited into the fund and interest earned on the cash deposit. After reclamation is completed, and after a holding period by the United States, the State will take control of the site and use the reclamation bond to pay 100% of the ongoing water treatment costs. The State had a cash balance of approximately \$7.4 million as of June 30, 2011 from the cash reclamation bond deposited by Brohm. However, actual costs incurred when the State takes control of the site cannot be anticipated at this time because the final cleanup action has not been determined yet.

## 2. Petroleum Release Compensation Fund

The Petroleum Release Compensation Fund (PRCF) provides reimbursement for remediation of sites where a petroleum release has occurred. This fund and the requirement that the State provide reimbursement was established under SDCL 34A-13 and 34A-14. As of June 30, 2011, PRCF was currently involved with 66 active cases, 39 active/monitoring cases, and 15 pending cases (spill report not yet filed), for a total of 120 cases. The cost remaining for sites that have received at least one payment is \$969,200, the cost for sites that haven't received any payments is \$2,300,000 and the estimated cost for the Abandoned Tank Removal Program is \$600,000. The total liability as of June 30, 2011 for this program is \$3,869,200.

### Other Obligations

#### 1. Bond Anticipation Notes – Clean Water and Drinking Water State Revolving Funds

Bond Anticipation Notes (BANS) with a total par amount of \$55 million (\$37M Clean Water, \$18M Drinking Water) were issued with a closing date of 8/26/2009. They were sold at a total premium of \$807,400 (\$543,160 Clean Water, \$264,240 Drinking Water) making the total BANS proceeds \$55,807,400 (\$37,543,160 Clean Water, \$18,264,240 Drinking Water). The maturity date on the BANS was 9/30/2010 with an interest rate of 2.0% for both Clean Water and Drinking Water.

## 15. FUNCTIONAL DISTRIBUTION OF HIGHER EDUCATION OPERATING EXPENSES

The operating expenses on the Statement of Revenues, Expenses, and Changes in Net Assets are presented in natural classifications. The following table presents those same expenses in functional classifications as of June 30, 2011 as recommended by NACUBO (expressed in thousands):

Function	Personal Services	Travel	Contractual	Supplies & Noncapitalized Equipment	Grants & Subsidies	Interest & Other Expenses	Depreciation	Total
Instruction	\$151,052	\$ 2,525	\$ 13,286	\$ 7,078	\$ 444	\$ 21	\$ 2,723	\$177,129

\* This amount includes \$43,398,000 of equity from the Budget Reserve established by the 1991 South Dakota Legislature as discussed further in the following paragraph.

### ***Budget Reserve Account***

The 1991 South Dakota Legislature established a budget reserve funded from any unobligated cash in the General Fund. The maximum balance of the budget reserve is 10% of the prior year's General Fund appropriation. Expenditures out of the budget reserve fund shall only be used by special appropriation (which requires a two-thirds vote of all the members of each branch of the Legislature) and shall only redress such unforeseen expenditure obligations or such unforeseen revenue shortfalls as may constitute an emergency pursuant to South Dakota Constitution, Article III, Section 1. The balance in the budget reserve at June 30, 2011 was \$43,398,000 and is reported as unassigned fund balance within the General Fund.

### ***General Fund***

The State's General Fund beginning fund balance was restated in the current year for the reclassification of various statutorily created accounts, that because of the implementation of GASB 54, no longer qualify as Special Revenue Funds and were required to be combined with the State's General Fund (as identified in Note 1). As of June 30, 2011 the following equity balances were included within the State's General fund due to the implementation of GASB 54 (expressed in thousands):

<b>Fund Balance - June 30, 2011 excluding GASB 54 combinations</b>	<b>\$ 214,180</b>
<b>Statutorily Created Funds Combined with the General Fund</b>	
Property Tax Reduction - assigned for Education	67,754
Tourism Promotion - assigned for Tourism Promotion	2,454
Investment Council Operating - assigned for Other	1,728
Private Activity Bond - assigned for Other	67
Tax Relief - unassigned	936
Extraordinary Litigation Expense - unassigned	154
Unclaimed Property - unassigned	30
<b>Fund Balance - June 30, 2011 as reported</b>	<b>\$ 287,303</b>

### ***Net Assets Restricted by Enabling Legislation***

The government-wide Statement of Net Assets reports \$1.14 billion of restricted net assets for the primary government of which \$144.7 million was restricted by enabling legislation. Restrictions imposed by enabling legislation could be changed by future legislative action.

### ***Funds Held as Permanent Investments***

Funds held as permanent investments represent amounts that have been legally restricted for the purpose of providing a long-term source of investment income. Funds held in special revenue funds for this purpose have their principal balance reserved in the governmental fund financial statements since these amounts are not available for appropriation. In the government-wide Statement of Net Assets the principal balance is shown as unexpendable and the investment earnings remaining in these funds at June 30, 2011 is shown as expendable.

- ***Dakota Cement Trust Fund.*** This fund consists of the proceeds from the sale of the State Cement Plant and all investment earnings thereon. Article XIII, section 21 of the Constitution of the State of South Dakota states: "Except as provided in Article XIII, section 20 of the Constitution of the State of South Dakota, the original principal of the trust fund shall forever remain inviolate. However, the Legislature shall, by appropriation, make distributions from the difference between the twelve million dollar annual general fund transfer and five percent of the market value of the trust fund for the support of education, but not for the replacement of state aid to general education or special education, if the increase in the market value of the trust fund in that fiscal year was sufficient to maintain the original principal of the trust fund after such distributions."
- ***Education Enhancement Trust Fund.*** This fund consists of monies received from the Tobacco Settlement Agreement, monies transferred from the Tobacco Securitization Fund, and monies from the Youth-at-Risk Fund. The

fund is authorized by State law to make an annual distribution equal to 4.0% of its market value (less the investment expenses) into the General Fund for educational enhancement programs. Article XII, section 6 of the Constitution of the State of South Dakota also states that, "the Education Enhancement Trust Fund may not be diverted for other purposes, nor may the principal be invaded unless appropriated by a three-fourths vote of all the members-elect of each house of the legislature."

- **Health Care Trust Fund.** This fund is authorized by State law to make an annual distribution equal to 4.0% of its market value (less the investment expenses) into the General Fund for health care related programs. Article XII, section 5 of the Constitution of the State of South Dakota also states that, "the Health Care Trust Fund may not be diverted for other purposes, nor may the principal be invaded unless appropriated by a three-fourths vote of all of the members-elect of each house of the legislature."
- **Permanent Fund.** This fund is administered by the Office of School and Public Lands and accounts for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs.

These balances at June 30, 2011 are summarized as follows (expressed in thousands):

<b>Fund</b>	<b>Expendable</b>	<b>Nonexpendable</b>	<b>Total Restriction</b>
Dakota Cement Trust	\$ 4,698	\$ 238,000	\$ 242,698
Education Enhancement Trust	47,804	329,330	377,134
Health Care Trust	18,421	85,631	104,052
Permanent	669	30,825	31,494
<b>Total</b>	<b>\$ 71,592</b>	<b>\$ 683,786</b>	<b>\$ 755,378</b>

### **Individual Fund Deficits**

The following individual funds had deficit fund equity at June 30, 2011 (expressed in thousands):

<b>Fund Type/Fund</b>	<b>Deficit</b>
Internal Service:	
State Worker's Compensation	\$14,520
Special Revenue:	
Law Enforcement Revolving	156
Fire Suppression	1,437
Public Safety Emergency Management	17,100
Enterprise:	
Banking Special Revenue Fund	84

## **17. VOCATIONAL TECHNICAL INSTITUTES**

The State primary government has an ongoing financial responsibility for the funding of four technical institutes in the State. The technical institutes are considered part of the local school districts in the district where they are located. By law, the State may adopt rules governing the operation of the technical institutes including curriculum, tuition payments and other charges, and plans for construction or renovation of facilities. During fiscal year 2011, the State provided \$20,262,000 in General Fund state aid payments to the technical institutes.

Construction and renovation of facilities is funded with proceeds from debt issued by the Health and Education Facilities Authority. The Health and Educational Facilities Authority was created as a public instrumentality of the State to provide tax-exempt revenue bonds, notes or other obligations on behalf of nonprofit health and educational institutions within the State. Although the State primary government appoints a voting majority of the board, the State's accountability for this organization does not extend beyond making the appointments and is considered a related organization of the State.

The State enters into lease purchase agreements with the Health and Educational Facilities Authority and sub-leases the facilities to the school districts. The State makes lease payments to the Health and Educational Facilities Authority from a combination of General Fund appropriations, interest earnings from a special revenue fund and from student facility fees collected by the technical institutes and remitted to the State. Upon completion of payments under the lease agreements, titles to the facilities pass to the State. The sub-lease agreements with the school districts are then extended annually as

long as the school districts pay the State \$100 per year and continue to use the facilities for postsecondary vocational education. Facilities constructed or renovated and the lease purchase agreements between the State and the Health and Educational Facilities Authority are reported under the governmental activities column in the government-wide Statement of Net Assets.

## **18. RELATED PARTY TRANSACTIONS**

The Sanford Research/University of South Dakota (USD) was created by the Sioux Valley (Sanford) Health Care Systems and the USD School of Medicine to facilitate medical research and technology transfer. USD is a part of Higher Education and is a component unit of the state of South Dakota. The University of South Dakota subcontracted research awards totaling \$1,185,727 to Sanford Research/USD. The research conducted included areas of prenatal alcohol in sudden infant death syndrome, breast cancer cells project, and the Center for Health Research with Tribes in South Dakota, Montana and Wyoming. The funding sources were the National Science Foundation for \$28,714; the US Department of Health and Human Services for \$104,892; SD Governor's Research and Commercialization Council for \$1,045,670; and the remaining was funded from other sources.

The South Dakota Railroad Board (SDRB) has a loan program which enables the Regional Railroad Authority's to rehabilitate rail lines. In FY10 Sioux Valley Regional Railroad Authority (SVRRA) applied for and was approved for a loan from the SDRB. The loan was to rehabilitate a section of rail between Canton and Elk Point, SD. The SVRRA has tax levying power and was created by D&I Railroad Co. SVRRA passed the loan funds onto D & I Railroad Co who is the operator. A SDRB member is also the president of D & I Railroad Co. Funding for the loan came from the Department of Transportation Railroad Trust fund and a total of \$5,396,622.00 was awarded to Sioux Valley Regional Railroad Authority in FY10. For FY11, Day County Regional Railroad Authority was approved a loan in the amount of \$1,500,000.00 and Aberdeen-Brown County Regional Railroad Authority was approved a loan in the amount of \$3,000,000 to expand South Dakota Wheat Growers existing industrial siding for 10,365 feet near Andover, SD and 12,770 feet near Roscoe, SD, respectively. An employee of South Dakota Wheat Growers is also the chairman of the South Dakota Railroad Board.

The South Dakota Development Corporation (SDDC) was created under the South Dakota Nonprofit Corporation Act with the Secretary of State's office. The SDDC is a South Dakota non-profit corporation and a Certified Development Company created for the purpose of administering the U.S. Small Business Administration's (SBA) 503/504 loan programs and the Microloan Program. The Microloan Program was formed as a partnership between Citibank (South Dakota) N.A., the SDDC and The South Dakota Department of Tourism and State Development (SDDTSD). Citibank is no longer a part of this partnership. The SDDTSD has agreed to provide certain staff services and related support of the SBA 504 loans and Microloan Program loans made by SDDC. The SDDTSD provides these services out of SDDTSD funds. The SDDTSD grants are provided to SDDC to be used for loans to businesses in South Dakota. The purpose of the SBA's 503/504 loan program and the Microloan program, is to help facilitate economic development and the creation of jobs in South Dakota. These loans are used to assist companies either operating in the state or moving to the state. Businesses use the loan funds to expand their operations, improve their facilities, or set up operations in South Dakota. There were nine 503/504 loans awarded during FY11 totaling \$4,698,597. Funding for these loans came from the SBA. In addition, the SDDTSD's Revolving Economic and Development Initiative fund board has loaned out \$645,312 for the Microloan Program loans and granted \$5,300,000 from the Future Fund to the SDDC in FY11.

## **19. CONTINGENCIES AND LITIGATION**

The State of South Dakota is party to numerous legal proceedings, many of which occur in the normal course of governmental operation. Adverse judgment of these lawsuits could result in liabilities to the State. Based on prior experience, it is unlikely that the outcome of these claims will materially affect the financial position of the State. The contingent liabilities at June 30, 2011 are as follows:

**Darley International, LLC v. South Dakota International Business Institute and Hanul Professional Law Corp.** Darley International brought an arbitration action against a Korean law firm and the South Dakota International Business Institute, which at that time was part of Northern State University under the control of the South Dakota Board of Regents. The arbitration action is brought in the State of California and involves contract and tort claims arising from an overseas investor recruitment agreement between the plaintiff and the Korean law firm involving activities conducted by the South Dakota International Business Institute. Darley claims damages exceeding \$1,000,000. Darley moved to defer arbitration in 2011 in an effort to join additional parties. Darley has not yet moved for an arbitration date in 2012. The matter is being vigorously defended. In the opinion of Counsel defending the action, the risk of a reportable unfavorable outcome

appears low as the claim of damages is speculative and the underlying claims are uncertain. If the decision is unfavorable, it could have a material impact on the State's General Fund and/or Higher Education, a discretely presented component unit of the State.

**M.A. Mortenson Company Appeal of Certificate of Assessment.** On November 30, 2010, the Department of Revenue and Regulation issued a certificate of assessment against M.A. Mortenson Company for tax, penalty and interest in the amount of \$6,037,343.44. On January 28, 2011, M.A. Mortenson Company, along with Tatanka Wind Power, LLC, filed a request for an administrative hearing concerning the certificate of assessment. Mortenson, along with Tatanka, is claiming the Department erred as a matter of law in concluding that wind turbines are subject to the contractor's excise tax as wind turbines should not be considered realty fixtures. In the alternative, they argue that Tatanka Wind Farms meets the definition of a qualified utility and therefore the value of the turbines supplied by Tatanka or its affiliates is subject to the Alternate Contractor's Excise Tax under SDCL ch. 10-46B. At this point the matter has not been scheduled for hearing. The Department of Revenue and Regulation intends to vigorously assert the correctness of the certificate of assessment, however, due to the nature of procedural and substantive defenses, counsel is not in a position to give any opinion at this time as to the risk of an unfavorable outcome regarding this matter. If the decision is unfavorable, it could have a material impact on the State's General Fund.

**Client Network Services, Inc. v. State of South Dakota et. al.** On December 16, 2010, Client Network Services, Inc. (CNSI) sued the State of South Dakota and the South Dakota Department of Social Services in state circuit court, Hughes County regarding a contract for a large-scale project called SDMEX to replace the State's legacy Medicaid Management Information System. The claims against the State Defendants are for breach of contract and unjust enrichment, and the requested damages are approximately \$13,200,000. On January 21, 2011, the State Defendants filed an answer denying liability and a counterclaim against CNSI for approximately \$32,400,000 for breach of contract. Litigation is in its initial stages. The Attorney General's Office is counsel for all State Defendants. Counsel for State Defendants are vigorously defending and pursuing the counter claims. At this time, counsel for State Defendants are not in the position to give any opinion regarding the risk of an unfavorable outcome or the potential financial impact (positive or negative) of any final judgment on the State's financial statement. If the decision is unfavorable, it could have a material impact on the State's General Fund.

**Northern Border Pipeline Company v. Department of Revenue.** The Department conducted an audit of Northern Border Pipeline Company. On September 6, 2011, the Department issued a certificate of assessment against Northern Border Pipeline in the amount of \$5,760,120.25, consisting of \$4,160,756.59 of tax and \$1,599,374.66 of interest. On November 3, 2011, Northern Border Pipeline requested an administrative hearing contesting the assessment stating the Department made mistakes of fact or errors of law in issuing the assessment. This matter was heard before the Office of Hearing Examiners on May 1, 2012 and a briefing schedule has been set up. A decision is anticipated by this fall. The Department of Revenue intends to vigorously assert the correctness of the certificate of assessment, however, due to the nature of procedural and substantive defenses counsel is not in a position to give any opinion at this time as to the risk of a favorable or unfavorable outcome regarding this matter. If the decision is unfavorable, it could have a material impact on the State's General Fund.

**Mark Long, et. at. v. State.** A group of homeowners brought a regulatory takings action against the State of South Dakota and City of Sioux Falls through a complaint filed in the Second Circuit, Minnehaha County, dated October 26, 2010. Plaintiff's takings claims relate to flooding resulting from an extreme precipitation event in Minnehaha County during 2010. The claim is for \$1,250,000 and an additional sum of compensation for diminished use of property. The action is in the discovery phase. Counsel for the State is vigorously defending this action. However, due to the early stages of litigation and the nature of the claims and potential defenses, counsel is not in the position to give any opinion as to the risk of an unfavorable outcome or the potential monetary consequences. If the decision is unfavorable, it could have a material impact on the State's General Fund.

**Claim for Recovery for Overpayment of Franchise Tax on Financial Institutions.** Banks and financial institutions are subject to South Dakota's Income Tax on Banks and Financial Corporations as outlined in SDCL ch. 10-43. In 2012, the S.D. Department of Revenue has received claims for refund of bank franchise tax in the aggregate amount of \$29,944,132. The S.D. Department of Revenue reviewed and denied the requests for refund. The denial of the requests is currently being contested and administrative hearing proceedings are pending. The Department counsel is not in a position to offer an opinion at this time as to the risk of an unfavorable outcome, which could have a material impact on the State's General Fund.

**South Dakota Department of Transportation Workers Compensation Claim.** On November 16, 2011, an employee of the South Dakota Department of Transportation was involved in a car accident. The employee was on the way back from a work trip to Yankton. The car accident occurred in an area where the employee would not have been expected or required to travel for their employment on that day. The claim for workers' compensation benefits was denied on the basis the car accident occurred outside the scope of employment with South Dakota Department of Transportation. The claimant's attorney filed a Petition for medical and indemnity/disability benefits. The Workers' Compensation Program plans to contest the responsibility and liability and defend vigorously on the basis the car accident did not arise out of and in the course of employment. The Present Value of indemnity/disability benefits is \$470,578.40. An estimate of the medical expenses will exceed \$1,000,000. If the decision is unfavorable, it could have a material impact on the State Employee Workers Compensation Fund.

## ***20. SUBSEQUENT EVENTS***

### ***Housing Authority***

On July 14, 2011, the Housing Authority issued \$30,000,000 of Single Family Mortgage Bonds 2011 Series 1 and \$45,000,000 of Single Family Mortgage Bonds 2009 Series 1-C. The bonds will mature May 1, 2012 through November 1, 2041.

On October 20, 2011 the Housing Authority issued \$100,000,000 of Single Family Mortgage Bonds 2011 Series 2. The bonds will mature May 1, 2012 through November 1, 2041.

On June 13, 2012, the Housing Authority issued \$58,245,000 of Homeownership Mortgage Bonds 2012 Series ABC. The bonds will mature May 1, 2013 through November 1, 2042.

### ***Building Authority***

On August 11, 2011, the Building Authority issued the Series 2011 Revenue Bonds in the amount of \$12,880,000 to finance various cost related to a number of maintenance projects on buildings under lease from the Authority to the South Dakota Board of Regents.

On December 13, 2011, the Building Authority issued the Series 2011A Revenue Bonds in the amount of \$6,925,000.

### ***Vocational Education Program***

On August 11, 2011, the Health and Educational Facilities Authority issued the Vocational Education Program Series 2011A bonds in the amount of \$20,140,000.

On February 16, 2012, the Health and Educational Facilities Authority issued the Vocational Education Program Series 2012A bonds in the amount of \$18,810,000.

### ***Department of Environment and Natural Resources***

On May 8, 2012, the Department issued State Revolving Fund Program Bonds in the amount of \$69,775,000 for Taxable Revenue Bonds Series 2012A and in the amount of \$53,530,000 for Revenue Bonds Series 2012B.

### ***Value Added Finance Authority***

On June 7, 2012, the Value Added Finance Authority issued Beginning Farmers Bonds in the amount of \$682,500.

### ***Board of Regents***

On November 17, 2011 the Board of Regents issued Housing and Auxiliary Facilities System Revenue Bonds Series 2011 in the amount of \$63,480,000. The new bond issue is to be used at South Dakota State University for a new residence hall project, student union expansion (including dining), family student housing project, and parking expansion and for Northern State University for a student center project.

## **Required Supplementary Information**

### **Notes to Required Supplementary Information - Budgetary Reporting**

The Budgetary Comparison Schedule presents comparisons of the original budget and legally revised final budget, with actual amounts for each program of the state of South Dakota on a budgetary basis. A Budgetary Comparison Schedule is presented for the general fund and for each major special revenue fund that has a legally adopted annual budget. There are currently two major special revenue funds that fit this criterion: the Social Services Federal Fund and the Transportation Fund. The Budget Comparison Schedule follows the same format, terminology, and classification as the state's General Appropriations Act (General Bill). Also included is a column that compares the variance between the final budget and actual amounts. A positive variance refers to unused budget, while a negative variance refers to an over expended budget. For the year ended June 30, 2011, there were no over-expenditures by any State departments.

The original budget is defined as the first complete appropriated budget, adjusted by reserves, transfers, allocations, supplemental appropriations, reorganizations, and other legally authorized legislative and executive changes before the beginning of the fiscal year. Any such transaction that is authorized as legislative or executive change before the beginning of the fiscal year is included in the original budget, regardless of the effective date of the document loaded on the accounting system. Any of these adjustments may change the format, terminology, or classification of a Budget Comparison Schedule. The original budget also includes any actual appropriation amounts carried forward by law from prior years, including special appropriations, maintenance and repair, and carryovers. The final budget is defined as the original budget, adjusted by all reserves, transfers, allocations, supplemental appropriations, reorganizations, and other legally authorized legislative and executive changes after the beginning of the fiscal year.

The Budgetary Comparison Schedule reports amounts on a budgetary basis. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with Generally Accepted Accounting Principles (GAAP). Since the budget is prepared principally on a cash basis, the Budgetary Comparison Schedule includes information presented on this basis for the fiscal year. A reconciliation of the two methods for the fiscal year ended June 30, 2011 has also been included as Required Supplementary Information.

## **COMBINING FINANCIAL STATEMENTS**

***The “Combining Financial Statements” include the Nonmajor Governmental Funds, Nonmajor Enterprise Funds, Internal Service Funds, Fiduciary Funds, Component Units and Nonmajor Component Units. The following individual statements are included:***

***Combining Balance Sheet – Nonmajor Governmental Funds – By Type***

**Source:** Clean Water State Revolving Fund Financial Statements, Drinking Water State Revolving Fund Financial Statements, Education Enhancement Funding Corporation Annual Report, and Building Authority Lease Rental Schedules and Debt Service Schedules.

- Note:** (a) The Building Authority, Educational Enhancement Funding Corporation, Clean Water State Revolving Fund, and Drinking Water State Revolving Fund are considered to be blended component units of the State. The Revenue Bonds and Trust Certificates issued by these entities may not be or become a lien, charge, or liability against the State.
- (b) For the Educational Enhancement Funding Corp: Based upon the adjusted mandatory principal payments. Not in the calculation, \$62,867,000 in principal has been turbo redeemed from June 1, 2003 through June 30, 2011.
- (c) Debt coverage on Clean Water bonds in FY 2005 is 36.46% because all but one previous bond issue was refunded during that fiscal year, so there was not any debt services payment on those bonds during that fiscal year.
- (d) The Educational Enhancement Funding Corporation was created in FY 2003.
- (e) All funds are presented on a accrual basis except for the Building Authority Fund which is presented on a cash basis.
